TRENDWATCH CHARTBOOK 2018

Trends Affecting Hospitals and Health Systems

TrendWatch, produced by the American Hospital Association, highlights important trends in the hospital and health care field. TrendWatch products include a series of reports, released each year, that provide up-to-date information on health and hospital trends, and this Chartbook.

The American Hospital Association (AHA) is the national organization that represents and serves all types of hospitals, health care networks, and their patients and communities. Close to 5,000 institutional, 600 associate, and 40,000 personal members come together to form the AHA.

TABLE OF CONTENTS

CHAPTER 1:	Trends in the Overall Health Care Market	1
Chart 1.1:	Total National Health Expenditures	3
Chart 1.2:	Percent Change in Total National Health Expenditures	3
Chart 1.3:	Per Capita National Health Expenditures	4
Chart 1.4:	National Health Expenditures as a Percentage of Gross Domestic Product	4
Chart 1.5:	National Expenditures for Health Services and Supplies by Category	5
Chart 1.6:	Percent Change in National Expenditures for Selected Health Services and Supplies	6
Chart 1.7:	National Health Expenditures	6
Chart 1.8:	Consumer Out-of-pocket Payments for National Health Expenditures	7
Chart 1.9:	Total Prescription Drug Spending	7
Chart 1.10:	Consumer Out-of-pocket Spending vs. Private Health Insurance Spending for Prescription Drugs	8
Chart 1.11:	Distribution of National Health Expenditures by Source of Payment	8
Chart 1.12:	Distribution of Health Insurance Coverage, Percentage of Population Covered by Payer	9
Chart 1.13:	Number and Percent Uninsured	9
Chart 1.14:	Average Percent Uninsured by State	10
Chart 1.15:	Medicare Enrollees	10
Chart 1.16:	Medicaid Enrollees	11
Chart 1.17:	National CHIP Enrollment	11
Chart 1.18:	Percent Change in CHIP Enrollment By State	12

Chart 1.19:	Percentage of Employees with Employer-based Coverage Who Can Choose Conventional, PPO, HMO, POS, and HDHP/SO Plans	12
Chart 1.20:	Distribution of Employer-sponsored Health Insurance Enrollment by Type of Plan	13
Chart 1.21:	Percentage of Medicare Beneficiaries Enrolled in Medicare Managed Care	13
Chart 1.22:	Percent Growth in Medicare Spending per Beneficiary vs. Private Health Insurance Spending per Enrollee	14
Chart 1.23:	Percentage of Medicaid Beneficiaries Enrolled in Medicaid Managed Care	14
Chart 1.24:	Percentage of Medicaid Beneficiaries Enrolled in Medicaid Managed Care by State	15
Chart 1.25:	Status of State Medicaid Expansion Decisions	15
Chart 1.26:	Total Effectuated Marketplace Enrollment by Metal Level	16
Chart 1.27:	Annual Change in Health Insurance Premiums	16
Chart 1.28:	Managed Care Plan Median Operating Margins	17
Chart 1.29:	Operating Margins of the Top Insurers	17
CHAPTER 2:	Organizational Trends	20
Chart 2.1:	Number of Community Hospitals	21
Chart 2.2:	Number of Beds and Number of Beds per 1,000 Persons	21
Chart 2.3:	Beds per 1,000 by State	22
Chart 2.4:	Number of Hospitals in Health Systems	22
Chart 2.5:	Number of Medicare-certified Ambulatory Surgical Centers	23
Chart 2.6:	Percentage of Hospitals with Physician Affiliates by Type of Relationship	23
Chart 2.7:	Percentage of Hospitals with Insurance Products by Type of Insurance	24
Chart 2.8:	Percentage of Hospitals Offering “Non-hospital” Services	24
Chart 2.9:	Announced Hospital Mergers and Acquisitions	25

CHAPTER 3:	Utilization and Volume	27
	Chart 3.1: Inpatient Admissions in Community Hospitals	29
	Chart 3.2: Total Inpatient Days in Community Hospitals	29
	Chart 3.3: Inpatient Admissions per 1,000 Persons	30
	Chart 3.4: Inpatient Days per 1,000 Persons	30
	Chart 3.5: Average Length of Stay in Community Hospitals	31
	Chart 3.6: Average Length of Stay in Community Hospitals by State	31
	Chart 3.7: Emergency Department Visits and Emergency Departments in Community Hospitals	32
	Chart 3.8: Hospital Emergency Department Visits per 1,000 Persons	32
	Chart 3.9: Total Hospital Outpatient Visits in Community Hospitals	33
	Chart 3.10: Hospital Outpatient Visits per 1,000 Persons	33
	Chart 3.11: Percentage Share of Inpatient vs. Outpatient Surgeries	34
CHAPTER 4:	Trends in Hospital Financing	35
	Chart 4.1: Percentage of Hospitals with Negative Total and Operating Margins	37
	Chart 4.2: Aggregate Total Hospital Margins and Operating Margins	37
	Chart 4.3: Distribution of Outpatient vs. Inpatient Revenues	38
	Chart 4.4: Annual Change in Hospital Operating Revenue and Expenses per Adjusted Admission	38
	Chart 4.5: Distribution of Hospital Cost by Payer Type	39
	Chart 4.6: Aggregate Hospital Payment-to-cost Ratios for Private Payers, Medicare, and Medicaid	40
	Chart 4.7: Hospital Payment Shortfall Relative to Costs for Medicare, Medicaid and Other Government	40

	Chart 4.8: Income from Investments and Other Non-operating Gains as a Percentage of Total Net Revenue	41
	Chart 4.9: Number of Bond Rating Upgrades and Downgrades, Not-for-profit Health Care	41
	Chart 4.10: Median Average Age of Plant	42
	Chart 4.11: Percent Change in Employment Cost Index, All Private Service Industries, All Health Services, and Hospitals	42
CHAPTER 5:	Workforce	43
	Chart 5.1: Total Number of Active Physicians per 1,000 Persons	45
	Chart 5.2: Total Number of Active Physicians per 1,000 Persons by State	45
	Chart 5.3: Number of Physicians and Dentists Employed by Community Hospitals	46
	Chart 5.4: Medical and Dental Residents in Training in Community Hospitals	46
	Chart 5.5: Total Full-time Equivalent Employees Working in Hospitals	47
	Chart 5.6: Full-time Equivalent Employees per Adjusted Admission	47
	Chart 5.7: Number of RN Full-time Equivalent Employees and RN FTEs per Adjusted Admission	48
	Chart 5.8: RN Full-time Equivalent as a Percentage of Total Hospital Full-time Equivalents	48
	Chart 5.9: Percent Distribution of RN Workforce by Age Group	49
	Chart 5.10: RN Employment by Type of Provider	49
	Chart 5.11: Number of Physicians by Age	50
	Chart 5.12: Annual Percentage Change in Entry Level Baccalaureate Nursing Enrollment	50
	Chart 5.13: National Supply and Demand Projections for FTE RNs	51

CHAPTER 6:	The Economic Contribution of Hospitals	53
Chart 6.1:	National Health Expenditures as a Percentage of Gross Domestic Product and Breakdown of National Health Expenditures	55
Chart 6.2:	Number of Full-time and Part-time Hospital Employees	55
Chart 6.3:	Impact of Community Hospitals on U.S. Economy (in \$ billions)	56
Chart 6.4:	Hospital Employment vs. Employment in Other Industries	56
Chart 6.5:	Average Weekly Earnings of Workers, Hospitals vs. All Service-providing Industries	57
Chart 6.6:	Hospital Employment by Occupation Type	57
Chart 6.7:	Percent Change in Employment, Seasonally-adjusted: Hospital vs. All Industries (Total Non-farm)	58
Chart 6.8:	Percent of Total Regional Employment by Hospitals	58
Chart 6.9:	Impact of Community Hospitals on U.S. Jobs (in millions)	59
Chart 6.10:	Percent of Costs by Category in the Inpatient Prospective Payment System Hospital Market Basket	59
Chart 6.11:	Hospital Impact on Sectors of the U.S. Economy (in \$ billions)	60
Chart 6.12:	Impact of Community Hospitals on U.S. Economy; All States, DC, and Total U.S.	61
CHAPTER 7:	Community Health Indicators	63
Chart 7.1:	U.S. Population Trends and Projections by Age	65
Chart 7.2:	U.S. Population Trends and Projections by Race	65
Chart 7.3:	Age-adjusted Death Rates, Selected Causes, by Race	66
Chart 7.4:	Percent of People with Chronic Conditions by Number and Sex	66
Chart 7.5:	Percent of Fee-for-Service Medicare Beneficiaries with Chronic Conditions	67
Chart 7.6:	Number of Persons with Asthma	67
Chart 7.7:	Percent of Adults with Hypertension by Sex	68

Chart 7.8:	Percent of Adults Who Are Overweight and Obese	68
Chart 7.9:	Percent of Expenses Used by People with Chronic Conditions by Service Type	69
Chart 7.10:	Percent of Spending for Individuals with Chronic Conditions by Insurance Status	69
Chart 7.11:	Percent of Medicare Fee-for-Service Beneficiaries vs. Percent of Medicare Spending, by Number of Chronic Conditions	70
Chart 7.12:	Percent of Medicare Fee-for-Service Spending on Chronic Conditions, by Type of Service	70
Chart 7.13:	Percent Uninsured by Race	71
Chart 7.14:	Percent of Adults with No Usual Source of Care by Race	71
Chart 7.15:	Percent of Adults with No Usual Source of Care by Insurance Status	72
Chart 7.16:	Percent of Children with No Usual Source of Care by Race	72
Chart 7.17:	Percent of Children with No Usual Source of Care by Insurance Status	73
Chart 7.18:	Percent of Individuals with No Health Care Visits by Race, Insurance Status	73
Chart 7.19:	Percent of Children with No Health Care Visits by Race, Insurance Status	74
Chart 7.20:	Percent of Children with No Dental Visits by Race, Poverty Status	74
Chart 7.21:	Percent of Children Vaccinated by Race, Poverty Status	75
Chart 7.22:	Percent of Women Receiving Mammography by Race, Poverty Status	75
Chart 7.23:	Percent of Adults with Chronic Conditions by Insurance Type	76
Chart 7.24:	Total Expenditures on Top 10 Most Costly Conditions Among Adults by Sex	76
Chart 7.25:	30-Day Readmission Rate for Medicare Fee-for-Service Beneficiaries by Number of Chronic Conditions	77

CHAPTER 1

Trends in the Overall
Health Care Market

Chart 1.1: Total National Health Expenditures, 1980 – 2016⁽¹⁾

Source: Centers for Medicare & Medicaid Services, Office of the Actuary. Data released December 6, 2017.

⁽¹⁾ CMS completed a benchmark revision in 2009, introducing changes in methods, definitions and source data that are applied to the entire time series (back to 1960). For more information on this revision, see <http://www.cms.gov/nationalhealthexpenddata/downloads/benchmark2009.pdf>.

⁽²⁾ Expressed in 1980 dollars; adjusted using the overall Consumer Price Index for Urban Consumers.

Chart 1.2: Percent Change in Total National Health Expenditures, 1995 – 2016⁽¹⁾

Source: Centers for Medicare & Medicaid Services, Office of the Actuary. Data released December 6, 2017.

⁽¹⁾ CMS completed a benchmark revision in 2009, introducing changes in methods, definitions and source data that are applied to the entire time series (back to 1960). For more information on this revision, see <http://www.cms.gov/nationalhealthexpenddata/downloads/benchmark2009.pdf>.

Chart 1.3: Per Capita National Health Expenditures, 1980 – 2016⁽¹⁾

Source: Centers for Medicare & Medicaid Services, Office of the Actuary. Data released December 6, 2017.

⁽¹⁾ CMS completed a benchmark revision in 2009, introducing changes in methods, definitions and source data that are applied to the entire time series (back to 1960). For more information on this revision, see <http://www.cms.gov/nationalhealthexpenddata/downloads/benchmark2009.pdf>.

⁽²⁾ Expressed in 1980 dollars; adjusted using the overall Consumer Price Index for Urban Consumers.

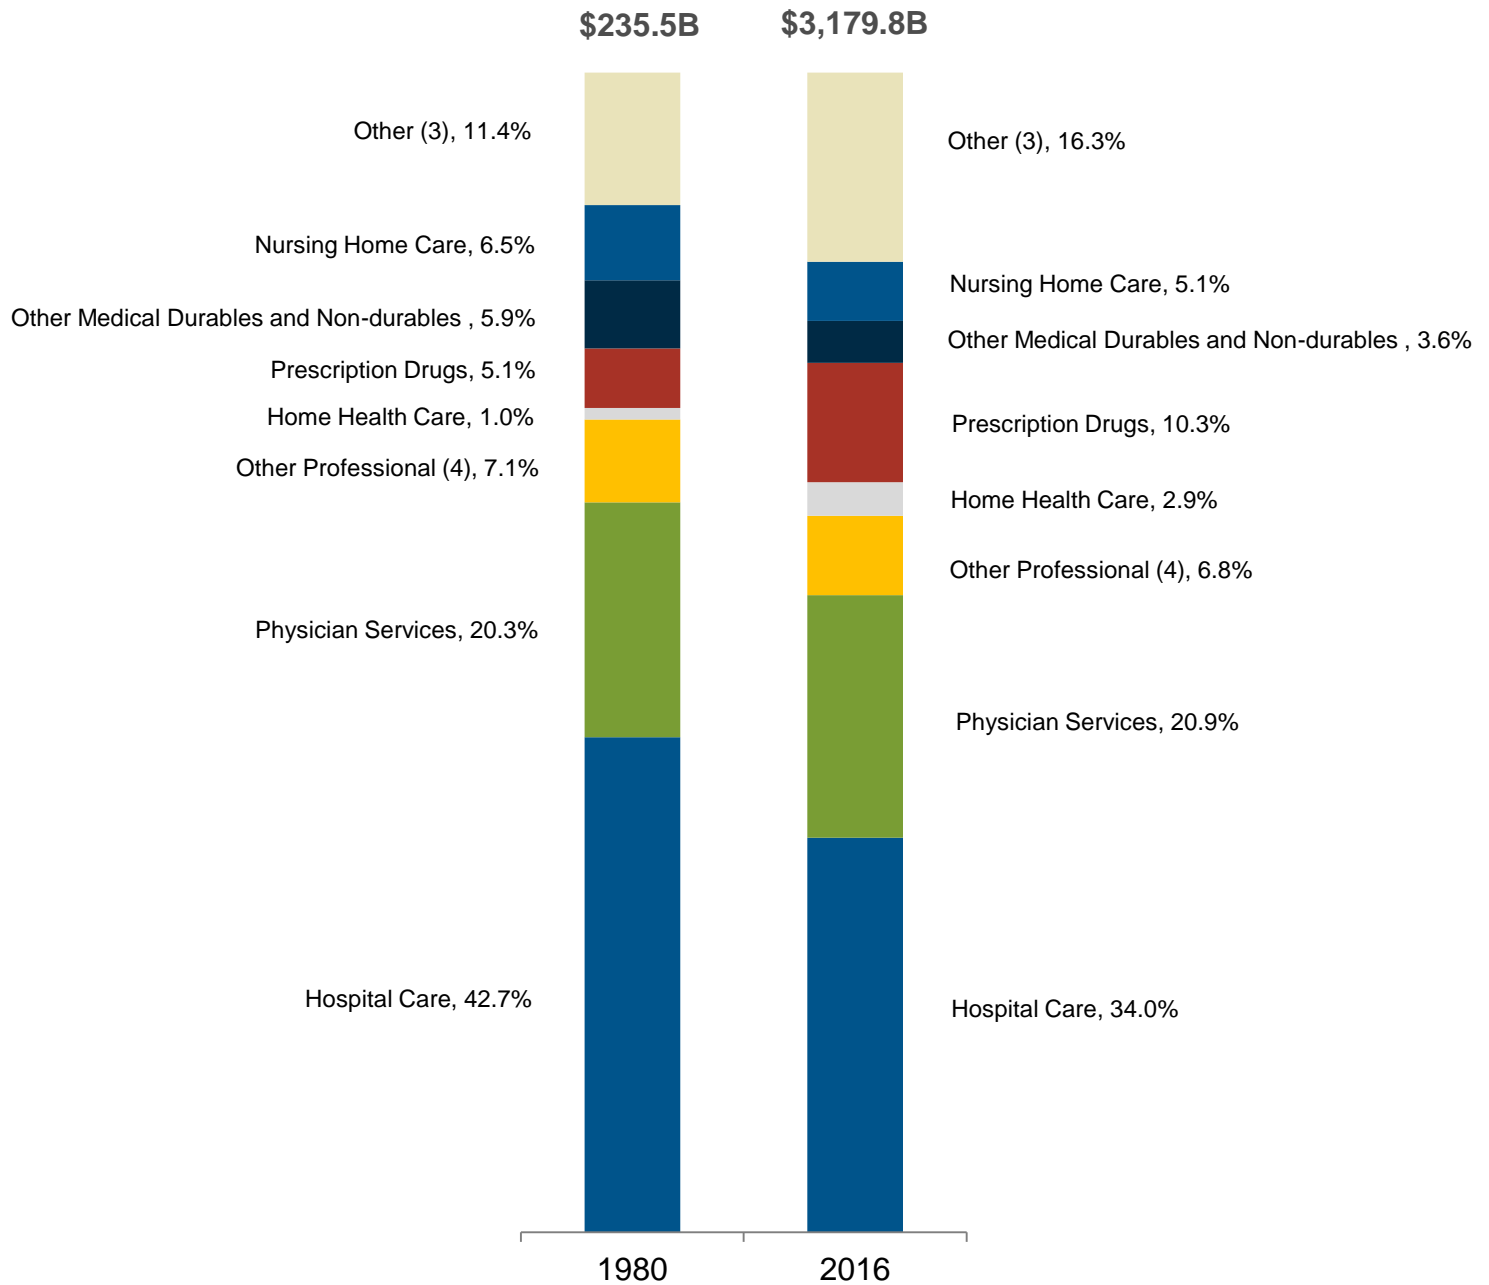

Chart 1.4: National Health Expenditures as a Percentage of Gross Domestic Product, 1995 – 2016⁽¹⁾

Source: Centers for Medicare & Medicaid Services, Office of the Actuary. Data released December 6, 2017.

⁽¹⁾ CMS completed a benchmark revision in 2009, introducing changes in methods, definitions and source data that are applied to the entire time series (back to 1960). For more information on this revision, see <http://www.cms.gov/nationalhealthexpenddata/downloads/benchmark2009.pdf>.

Chart 1.5: National Expenditures for Health Services and Supplies⁽¹⁾ by Category, 1980 and 2016⁽²⁾

Source: Centers for Medicare & Medicaid Services, Office of the Actuary. Data released December 6, 2017.

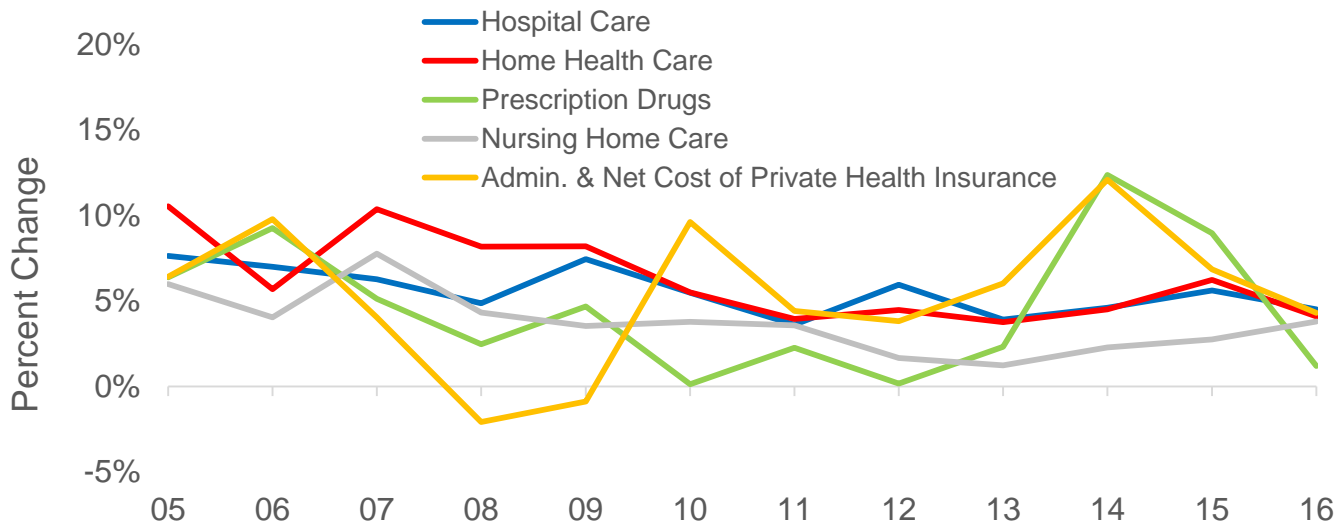

(1) Excludes medical research and medical facilities construction.

(2) CMS completed a benchmark revision in 2009, introducing changes in methods, definitions and source data that are applied to the entire time series (back to 1960). For more information on this revision, see <http://www.cms.gov/nationalhealthexpenddata/downloads/benchmark2009.pdf>.

(3) "Other" includes net cost of insurance and administration, government public health activities, and other personal health care.

(4) "Other professional" includes dental and other non-physician professional services.

Chart 1.6: Percent Change in National Expenditures for Selected Health Services and Supplies, 2005 – 2016⁽¹⁾

Source: Centers for Medicare & Medicaid Services, Office of the Actuary. Data released December 6, 2017.

⁽¹⁾ CMS completed a benchmark revision in 2009, introducing changes in methods, definitions and source data that are applied to the entire time series (back to 1960). For more information on this revision, see <http://www.cms.gov/nationalhealthexpenddata/downloads/benchmark2009.pdf>.

Chart 1.7: National Health Expenditures,⁽¹⁾ 1980 – 2025⁽²⁾

Source: Centers for Medicare & Medicaid Services, Office of the Actuary. Data released December 6, 2017.

⁽¹⁾ Years 2017 – 2025 are projections.

⁽²⁾ CMS completed a benchmark revision in 2009, introducing changes in methods, definitions and source data that are applied to the entire time series (back to 1960). For more information on this revision, see <http://www.cms.gov/nationalhealthexpenddata/downloads/benchmark2009.pdf>.

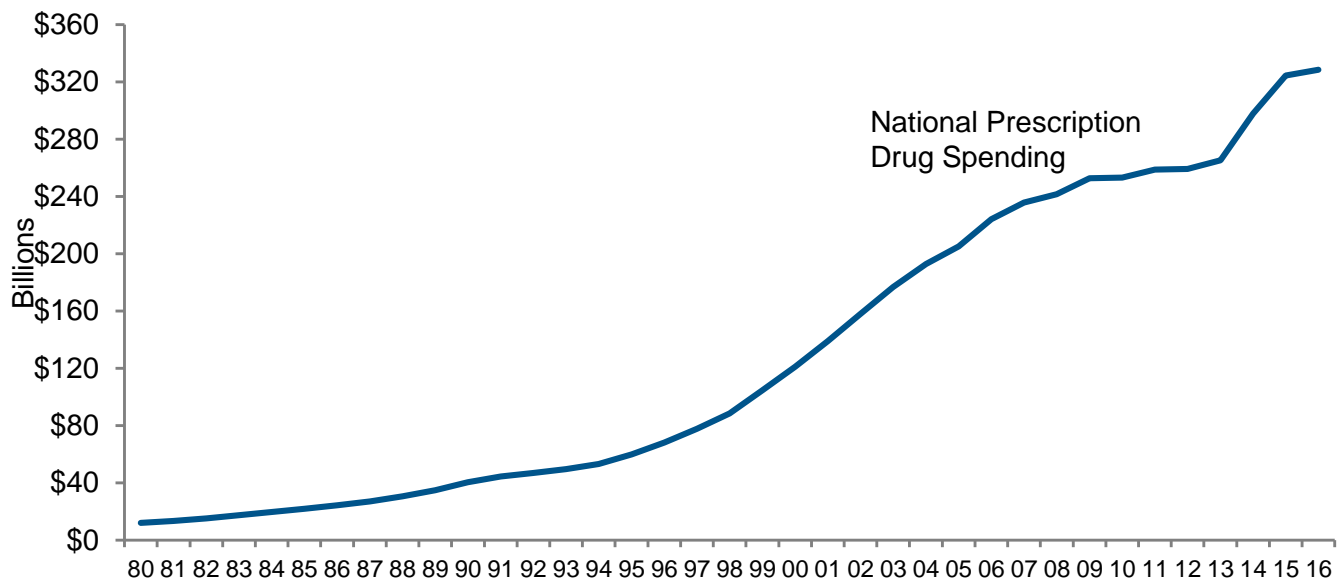

Chart 1.8: Consumer Out-of-pocket Payments for National Health Expenditures, 1995 – 2016⁽¹⁾

Source: Centers for Medicare & Medicaid Services, Office of the Actuary. Data released December 6, 2017.

⁽¹⁾ CMS completed a benchmark revision in 2009, introducing changes in methods, definitions and source data that are applied to the entire time series (back to 1960). For more information on this revision, see <http://www.cms.gov/nationalhealthexpenddata/downloads/benchmark2009.pdf>.

Chart 1.9: Total Prescription Drug Spending, 1980 – 2016⁽¹⁾

Source: Centers for Medicare & Medicaid Services, Office of the Actuary. Data released December 6, 2017.

⁽¹⁾ CMS completed a benchmark revision in 2009, introducing changes in methods, definitions and source data that are applied to the entire time series (back to 1960). For more information on this revision, see <http://www.cms.gov/nationalhealthexpenddata/downloads/benchmark2009.pdf>.

Chart 1.10: Consumer Out-of-pocket Spending vs. Private Health Insurance Spending for Prescription Drugs, 1995 – 2016⁽¹⁾

Source: Centers for Medicare & Medicaid Services, Office of the Actuary. Data released December 6, 2017.

⁽¹⁾ CMS completed a benchmark revision in 2009, introducing changes in methods, definitions and source data that are applied to the entire time series (back to 1960). For more information on this revision, see <http://www.cms.gov/nationalhealthexpenddata/downloads/benchmark2009.pdf>.

Chart 1.11: Distribution of National Health Expenditures by Source of Payment, 1980, 2000, and 2016⁽¹⁾

Source: Centers for Medicare & Medicaid Services, Office of the Actuary. Data released December 6, 2017.

⁽¹⁾ CMS completed a benchmark revision in 2009, introducing changes in methods, definitions and source data that are applied to the entire time series (back to 1960). For more information on this revision, see <http://www.cms.gov/nationalhealthexpenddata/downloads/benchmark2009.pdf>.

Chart 1.12: Distribution of Health Insurance Coverage, Percentage of Population Covered by Payer*, 1990, 2010, and 2016⁽¹⁾

Source: US Census Bureau, Current Population Survey, 2016 Annual and Social Economic Supplement. Data released September 2017.

Table HI01. Health Insurance Coverage Status and Type of Coverage by Selected Characteristics: 2016.

<https://www.census.gov/content/dam/Census/library/publications/2017/demo/p60-260.pdf>

⁽¹⁾ Percentages across categories do not sum to 100 percent, as individuals may maintain coverage from multiple payers (e.g. Medicare and Medicaid, Medicare and private, etc.)

Chart 1.13: Number and Percent Uninsured, 1995 – 2016

Source: US Census Bureau, Health Insurance Coverage in the United States: 2016. Data released September 2017. Figure HIC-4. HIC-4. Health Insurance Coverage Status and Type of Coverage by State--All Persons: 2008 to 2016. Link: https://www2.census.gov/programs-surveys/demo/tables/health-insurance/time-series/acs/hic04_acs.xls

Chart 1.14: Average Percent Uninsured by State, 2015 and 2016⁽¹⁾

Source: US Census Bureau, Health Insurance Coverage in the United States: 2016. Data released September 2017. Figure HIC-4. HIC-4. Health Insurance Coverage Status and Type of Coverage by State--All Persons: 2008 to 2016. Link: https://www2.census.gov/programs-surveys/demo/tables/health-insurance/time-series/acs/hic04_acs.xls

⁽¹⁾ Chart represents a weighted average uninsured rate for the years indicated.

Chart 1.15: Medicare Enrollees,⁽¹⁾ 1995 – 2016

Source: Centers for Medicare & Medicaid Services. Medicare Enrollment: National Trends, 1966 – 2005; Medicare Aged and Disabled Enrollees by Type of Coverage. CMS, Office of the Actuary. Email correspondence with CMS staff (for years 2001 – 2016).

⁽¹⁾ Hospital insurance (Part A) enrollees and/or Supplementary Medical Insurance (Part B) enrollees, including enrollees with Medicare Advantage; includes all persons (aged and disabled).

Chart 1.16: Medicaid Enrollees,⁽¹⁾ 1990, 1995, 2000, 2005, 2010 – 2018

Source: Congressional Budget Office. Data released January 2017. Detail of Spending and Enrollment for CBO's January 2017 Baseline: Medicaid. Link: <https://www.cbo.gov/sites/default/files/recurringdata/51301-2017-01-medicaid.pdf>

(1) Does not include CHIP enrollees.

(2) In 1997, the Other Title XIX category was dropped and the enrollees therein were subsumed in the remaining categories. Other Title XIX enrollees referred to others who received Medicaid benefits.

(3) For 2014 onward, CBO changed from reporting annual enrollment to average monthly enrollment. Therefore, category values are derived from the total ever enrolled for each year.

Chart 1.17: National CHIP Enrollment,^(1,2) FY 1999 – FY 2016

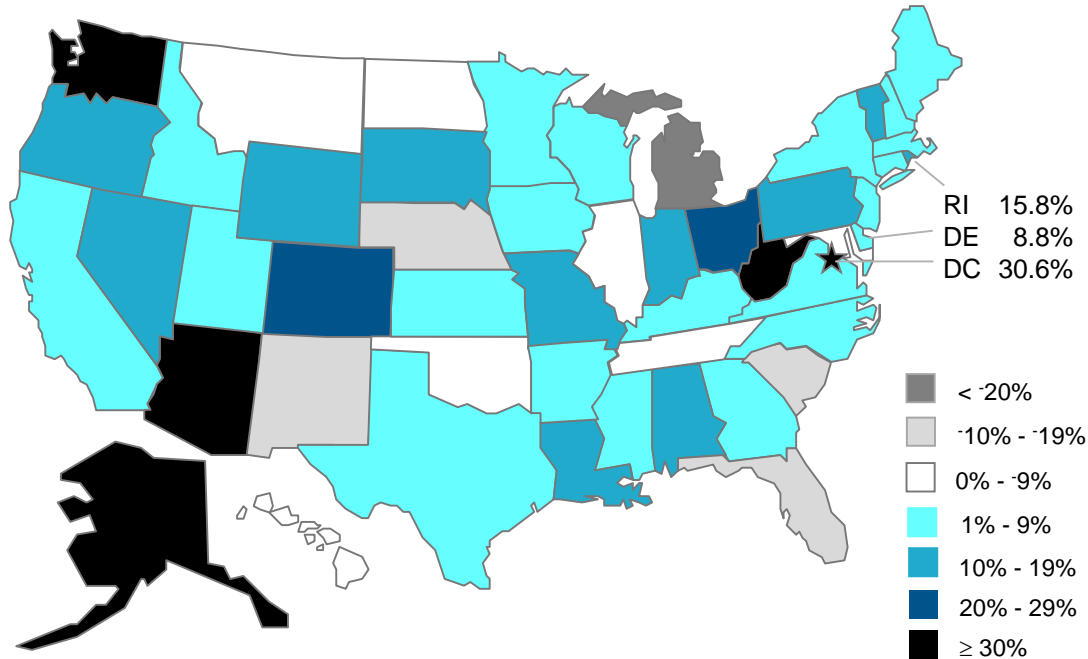

Source: Centers for Medicare & Medicaid Services. Data released July 2016. Number of Children Ever Enrolled Report. Link: <https://www.medicaid.gov/chip/downloads/fy-2016-childrens-enrollment-report.pdf>

(1) Number of children enrolled at any point in the year.

(2) 2009 figure reflects revised data released by Centers for Medicare & Medicaid Services on February 1, 2011.

Chart 1.18: Percent Change in CHIP Enrollment by State, FY 2015 – FY 2016

Source: Centers for Medicare & Medicaid Services. Data released July 2017. Number of Children Ever Enrolled Report.
Link: <https://www.medicaid.gov/chip/downloads/fy-2016-childrens-enrollment-report.pdf>

Chart 1.19: Percentage of Employees with Employer-based Coverage Who Can Choose Conventional, PPO, HMO, POS and, HDHP/SO Plans, 1988 – 2017

Source: The Kaiser Family Foundation and Health Research and Educational Trust. Data Released 2017. Employer Health Benefits: 1999, 2002, 2006 – 2017.

Link: <http://files.kff.org/attachment/Report-Employer-Health-Benefits-Annual-Survey-2017>

KPMG Survey of Employer-Sponsored Health Benefits: 1988, 1996.

PPO: Preferred Provider Organization; HMO: Health Maintenance Organization.

(1) Conventional plans refer to traditional indemnity plans.

(2) Point-of-service (POS) plans not separately identified in 1988.

(3) In 2006, the survey began asking about HDHP/SO, high deductible health plans with a savings option.

Chart 1.20: Distribution of Employer-sponsored Health Insurance Enrollment by Type of Plan, 1988 – 2017

Source: The Kaiser Family Foundation and Health Research and Educational Trust. Data Released 2017. Employer Health Benefits: 1999, 2002, 2006 – 2017.

Link: <http://files.kff.org/attachment/Report-Employer-Health-Benefits-Annual-Survey-2017>

KPMG Survey of Employer-Sponsored Health Benefits: 1988, 1996.

PPO: Preferred Provider Organization; HMO: Health Maintenance Organization.

(1) Conventional plans refer to traditional indemnity plans.

(2) Point-of-service (POS) plans not separately identified in 1988.

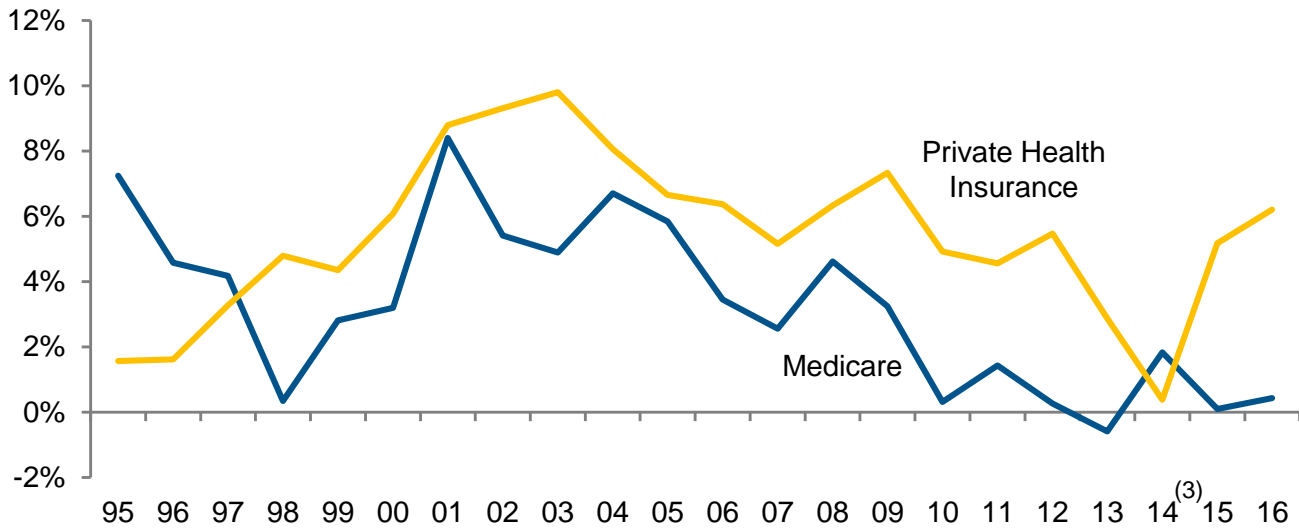

(3) In 2006, the survey began asking about HDHP/SO, high deductible health plans with a savings option.

Chart 1.21: Percentage of Medicare Beneficiaries Enrolled in Medicare Managed Care, 1995 – 2016

Source: Centers for Medicare & Medicaid Services, Office of the Actuary. Email correspondence with CMS staff in June 2017.

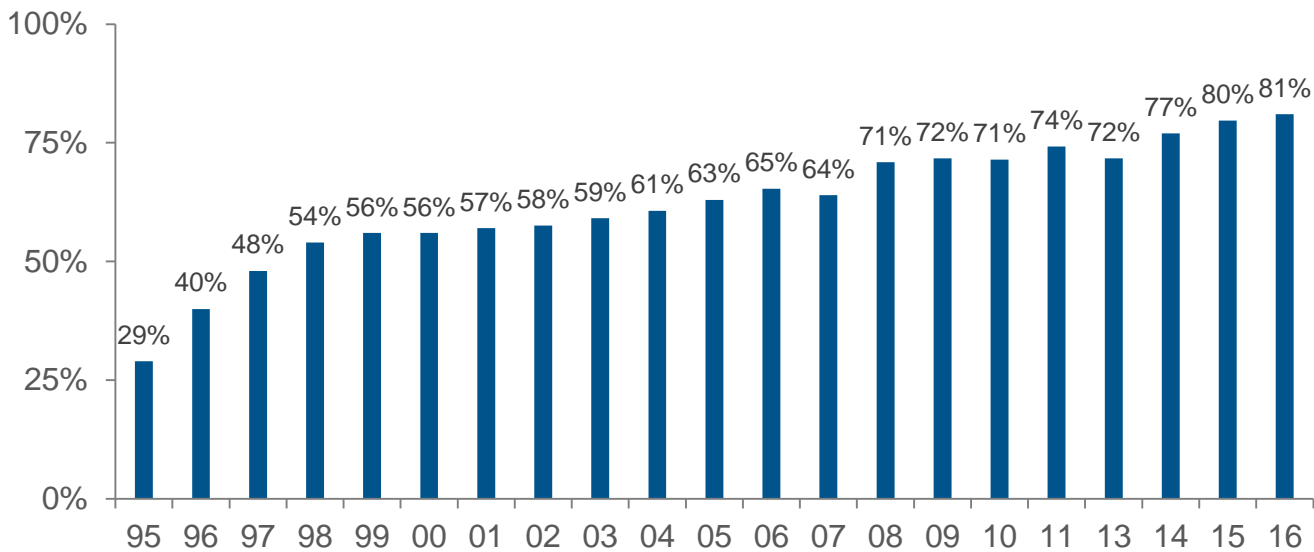

Chart 1.22: Percent Growth in Medicare Spending per Beneficiary vs. Private Health Insurance Spending per Enrollee, 1995 – 2016^(1,2)

Source: Centers for Medicare & Medicaid Services, Office of the Actuary. Data released December 6, 2017.

- (1) CMS completed a benchmark revision in 2009, introducing changes in methods, definitions and source data that are applied to the entire time series (back to 1960). For more information on this revision, see <http://www.cms.hhs.gov/NationalHealthExpendData/downloads/tables.pdf>.
- (2) Data reflects spending on benefits commonly covered by Medicare and Private Health Insurance.
- (3) CMS no longer includes the National Health Expenditure (NHE) table used to calculate growth in Medicare spending from 1994-2013. Data for 2014 and subsequent years reflects calculations using current NHE tables as recommended by CMS in email correspondence.

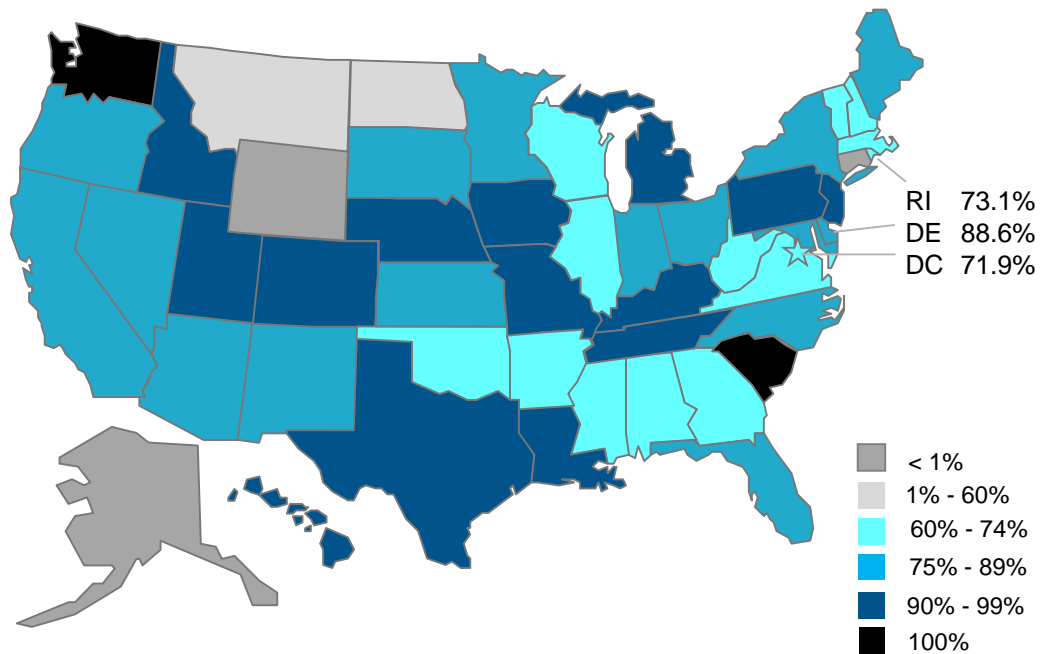

Chart 1.23: Percentage of Medicaid Beneficiaries Enrolled in Medicaid Managed Care, 1995 – 2011, 2013 – 2016⁽¹⁾

⁽¹⁾ CMS has not released data for 2012 total Medicaid managed care enrollment.

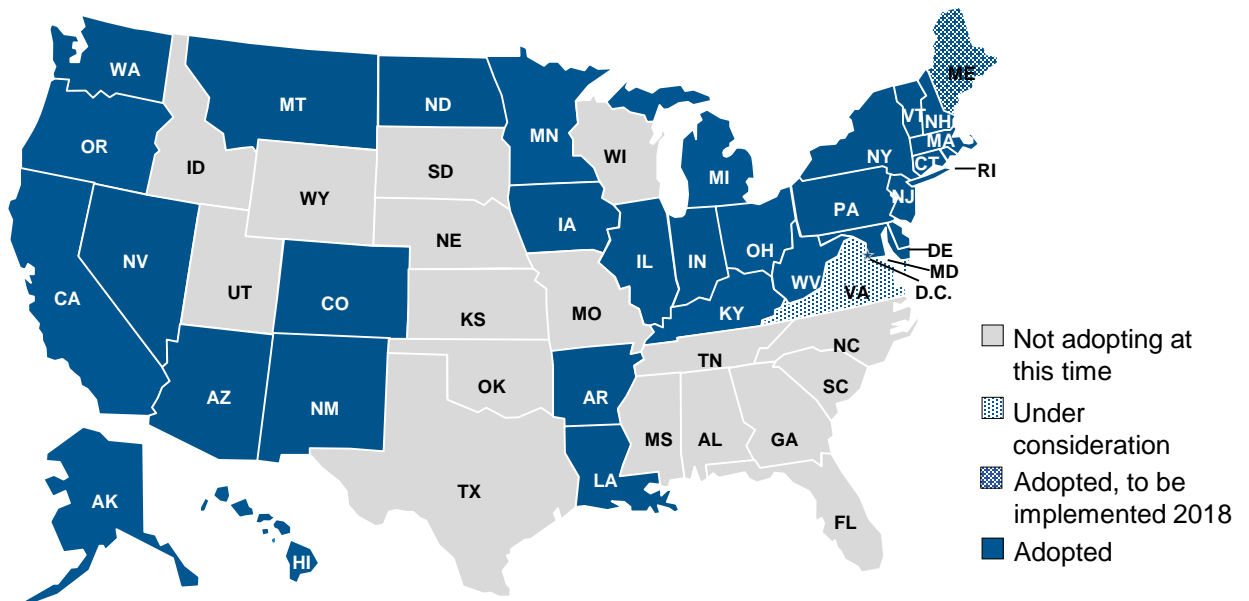

Source: Centers for Medicare & Medicaid Services, Office of the Actuary. Medicaid Managed Care Enrollment and Program Characteristics, 2016, released Spring 2018.
Link: <https://www.medicare.gov/medicaid/managed-care/downloads/enrollment/2015-medicare-managed-care-enrollment-report.pdf>.

Chart 1.24: Percentage of Medicaid Beneficiaries Enrolled in Medicaid Managed Care by State, 2016

Source: Centers for Medicare & Medicaid Services, Office of the Actuary. Medicaid Managed Care Enrollment and Program Characteristics, 2016; released Spring 2018. <https://www.medicaid.gov/medicaid/managed-care/downloads/enrollment/2016-medicaid-managed-care-enrollment-report.pdf>. and the Kaiser Family Foundation. State Health Facts. Total Medicaid Managed Care Enrollment. Link: <http://kff.org/medicaid/state-indicator/total-medicaid-mc-enrollment/>.

CHAPTER 2

Organizational Trends

Chart 2.1: Number of Community Hospitals,⁽¹⁾ 1995 – 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals.

⁽¹⁾ All non-federal, short-term general and specialty hospitals whose facilities and services are available to the public.

⁽²⁾ Data on the number of urban and rural hospitals in 2004 and beyond were collected using coding different from previous years to reflect new Centers for Medicare & Medicaid Services wage area designations.

Chart 2.2: Number of Beds and Number of Beds per 1,000 Persons, 1995 – 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals.

Chart 2.3: Beds per 1,000 Persons by State, 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals. US Census Bureau: National and State Population Estimates, July 1, 2016.
Link: <https://www.census.gov/data/datasets/2017/demo/popest/nation-detail.html>

Chart 2.4: Number of Hospitals in Health Systems,⁽¹⁾ 2005 – 2016

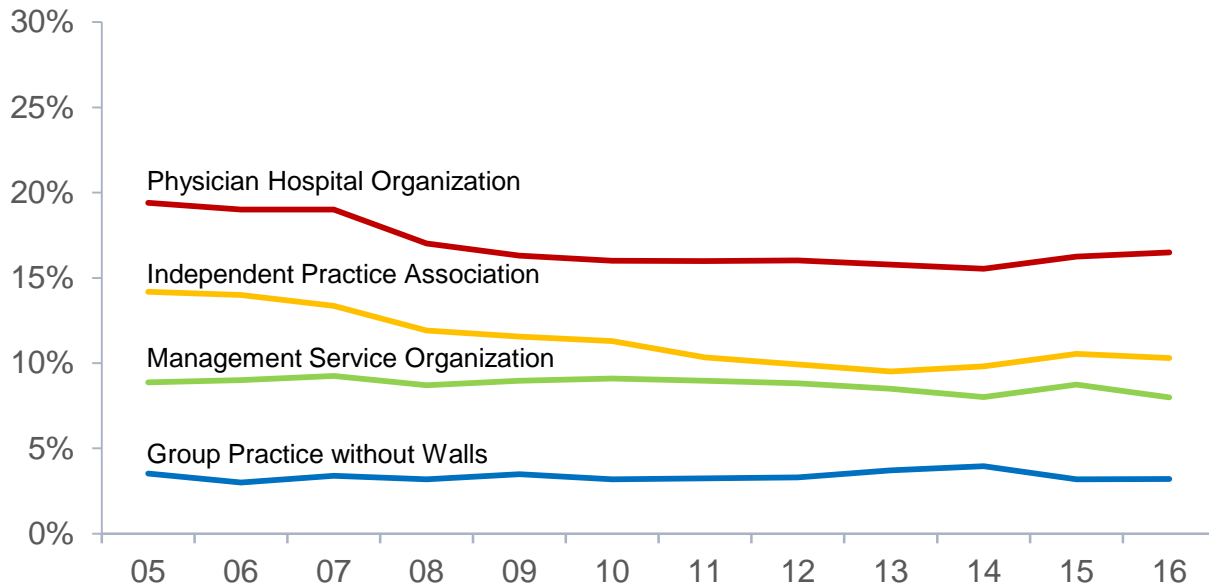

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals.
⁽¹⁾ Hospitals that are part of a corporate body that may own and/or manage health provider facilities or health-related subsidiaries as well as non-health-related facilities including freestanding and/or subsidiary corporations.

Chart 2.5: Number of Medicare-certified Ambulatory Surgical Centers, 2010, 2011, 2015, 2016

Source: Medicare Payment Advisory Commission. (March 2018). Report to the Congress: Medicare Payment Policy. Link: http://www.medpac.gov/docs/default-source/reports/mar18_medpac_ch5_sec.pdf

Chart 2.6: Percentage of Hospitals with Physician Affiliates⁽¹⁾ by Type of Relationship, 2005 – 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals.

⁽¹⁾ A hospital is considered to have a physician relationship if the relationship exists as part of the hospital or a system or network of which the hospital is a part.

Chart 2.7 in 2009 and earlier years' Chartbooks.

Chart 2.7: Percentage of Hospitals with Insurance Products by Type of Insurance, 2005 – 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals. Chart 2.8 in 2009 and earlier years' Chartbooks.

Chart 2.8: Percentage of Hospitals Offering “Non-hospital” Services,⁽¹⁾ 2005 – 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals.
⁽¹⁾ Includes services offered in hospital, health system, network or joint venture.
Chart 2.9 in 2009 and earlier years' Chartbooks.

Chart 2.9: Announced Hospital Mergers and Acquisitions, 2005–2017

Source: Irving Levin Associates, Inc. (2018). *The Health Care Services Acquisition Report*, Twenty-Fourth Edition.

(1) In 2006, the privatization of Hospital Corporation of America, Inc. affected 176 hospitals. The acquisition was the largest health care transaction ever announced.

(2) In 2013, consolidation of several investor-owned systems resulted in a large number of hospitals involved in acquisition activity *Chart 2.10 in 2009 and earlier year's Chartbooks..*

CHAPTER 3

Utilization and Volume

Chart 3.1: Inpatient Admissions in Community Hospitals, 1995 – 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals.

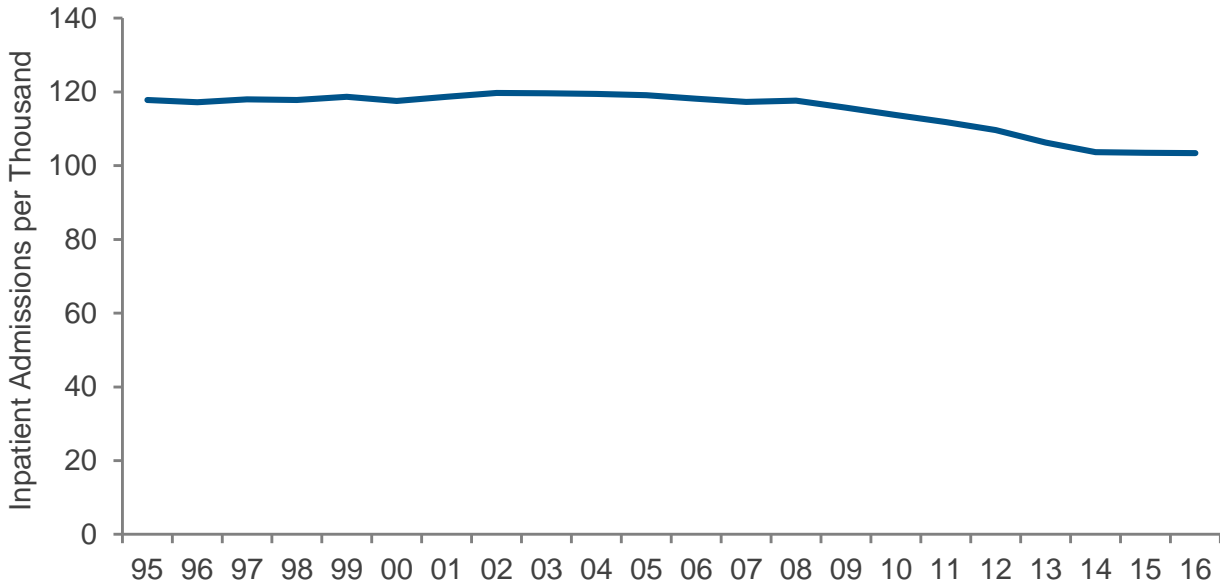

Chart 3.2: Total Inpatient Days in Community Hospitals, 1995 – 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals.

Chart 3.3: Inpatient Admissions per 1,000 Persons, 1995 – 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals. US Census Bureau: National and State Population Estimates, July 1, 2016.

Link: <https://www.census.gov/data/datasets/2017/demo/popest/nation-detail.html>

Chart 3.5: Average Length of Stay in Community Hospitals, 1995 – 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals.

Chart 3.6: Average Length of Stay in Community Hospitals by State, 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals.

Chart 3.7: Emergency Department Visits and Emergency Departments⁽¹⁾ in Community Hospitals, 1995 – 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals.
(1) Defined as hospitals reporting ED visits in the AHA Annual Survey.

Chart 3.8: Hospital Emergency Department Visits per 1,000 Persons, 1995 – 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals. US Census Bureau: National and State Population Estimates, July 1, 2016.
Link: <https://www.census.gov/data/datasets/2017/demo/popest/nation-detail.html>

Chart 3.9: Total Hospital Outpatient Visits in Community Hospitals, 1995 – 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals. *Chart 3.12 in 2013 and earlier years' Chartbooks.*

Chart 3.10: Hospital Outpatient Visits per 1,000 Persons, 1995 – 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals. US Census Bureau: National and State Population Estimates, July 1, 2016. [Link: https://www.census.gov/data/datasets/2017/demo/popest/nation-detail.html](https://www.census.gov/data/datasets/2017/demo/popest/nation-detail.html) *Chart 3.13 in 2013 and earlier years' Chartbooks.*

Chart 3.11: Percentage Share of Inpatient vs. Outpatient Surgeries, 1995 – 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals.
Chart 3.14 in 2013 and earlier years' Chartbooks.

CHAPTER 4

Trends in Hospital Financing

Chart 4.1: Percentage of Hospitals with Negative Total and Operating Margins, 1995 – 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals.

(1) Total Hospital Margin is calculated as the difference between total net revenue and total expenses divided by total net revenue.

(2) Operating Margin is calculated as the difference between operating revenue and total expenses divided by operating revenue.

Chart 4.2: Aggregate Total Hospital Margins⁽¹⁾ and Operating Margins,⁽²⁾ 1995 – 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals.

(1) Total Hospital Margin is calculated as the difference between total net revenue and total expenses divided by total net revenue.

(2) Operating Margin is calculated as the difference between operating revenue and total expenses divided by operating revenue.

Chart 4.3: Distribution of Outpatient vs. Inpatient Revenues, 1995 – 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals.

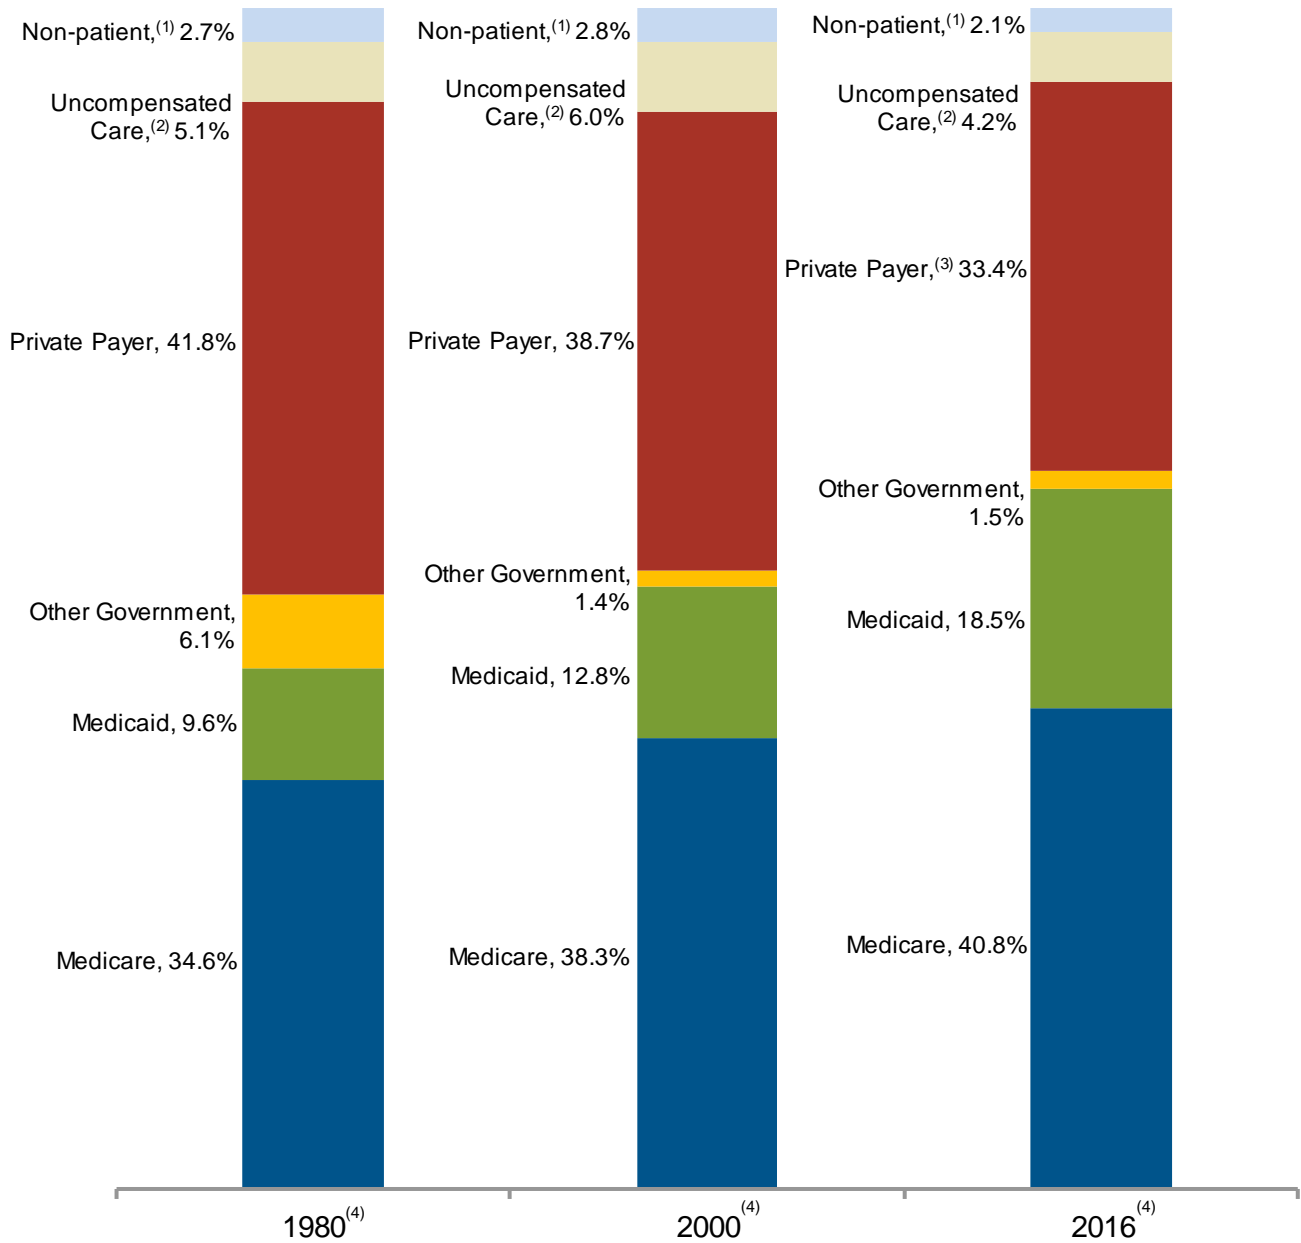

Chart 4.4: Annual Change in Hospital Operating Revenue and Expenses per Adjusted Admission,⁽¹⁾ 1995 – 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals.

⁽¹⁾ An aggregate measure of workload reflecting the number of inpatient admissions, plus an estimate of the volume of outpatient services, expressed in units equivalent to an inpatient admission in terms of level of effort.

Chart 4.5: Distribution of Hospital Cost by Payer Type, 1980, 2000, and 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals.

- (1) Non-patient represents costs for cafeterias, parking lots, gift shops and other non-patient care operating services and are not attributed to any one payer.
- (2) Uncompensated care represents bad debt expense and charity care, at cost.
- (3) Private payer formulas were updated in 2014 to account for the change in bad debt calculations, which is now reported as a deduction from revenue rather than a expense.
- (4) Percentages were rounded, so they do not add to 100 percent in all years.

Chart 4.6: Aggregate Hospital Payment-to-cost Ratios for Private Payers, Medicare, and Medicaid, 1995 – 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals.

(1) Includes Medicaid Disproportionate Share Hospital payments.

(2) Includes Medicare Disproportionate Share Hospital payments.

Chart 4.7: Hospital Payment Shortfall Relative to Costs for Medicare, Medicaid and Other Government, 1997 – 2016⁽¹⁾

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals.

(1) Costs reflect a cap of 1.0 on the cost-to-charge ratio.

Chart 4.8: Income from Investments and Other Non-operating Gains⁽¹⁾ as a Percentage of Total Net Revenue, 1995 – 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals.

⁽¹⁾ Non-operating gains include income from non-operating activities, including investments, endowments and extraordinary gains, as well as the value of non-realized gains from investments.

Chart 4.9: Number of Bond Rating Upgrades and Downgrades, Not-for-profit Health Care, 1995 – 2017

Source: Email correspondence with Fitch Ratings, Inc.

Chart 4.10: Median Average Age of Plant, 1995 – 2015

Source: Optum, *Almanac of Hospital Financial and Operating Indicators*, 2005, 2008, 2009, 2010, 2011, 2013, 2014, 2015, 2016, and 2017; CHIPS, *The Almanac of Hospital and Financial Operating Indicators*, 1994 and 1996-7.

Chart 4.11: Percent Change in Employment Cost Index,⁽¹⁾ All Private Service Industries, All Health Services and Hospitals, 2005 – 2017⁽²⁾

Source: Bureau of Labor Statistics, Employment Cost Index, 12 months ending December 2017. Link: www.bls.gov.

⁽¹⁾ Total compensation.

⁽²⁾ Data represent annualized 12 month percent change.

CHAPTER 5

Workforce

Chart 5.1: Total Number of Active Physicians per 1,000 Persons, 1980 – 2013

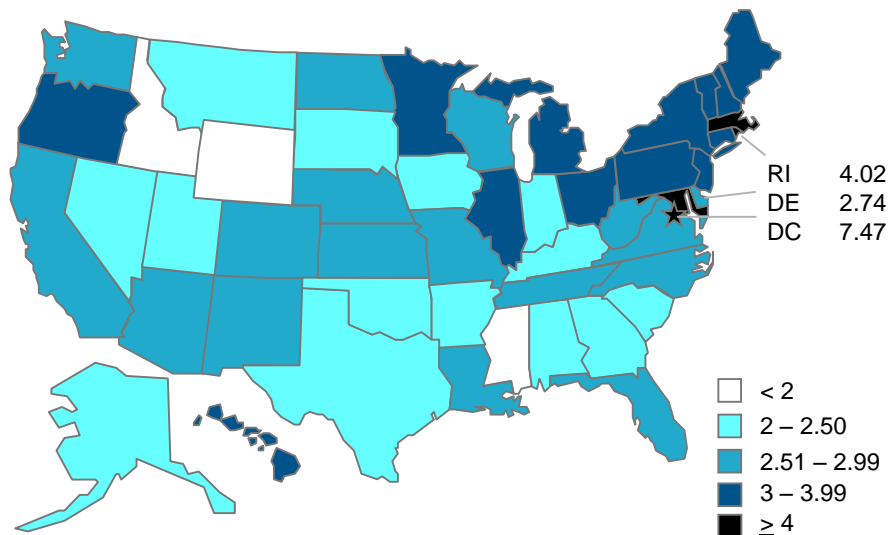

Source: National Center for Health Statistics. *Health, United States, 1982, 1996-97, 1999, 2000, 2001, 2002, 2003, 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2012, 2013, 2014, 2015 and 2016.* Hyattsville, MD.

(1) 1980 does not include doctors of osteopathy.

(2) 2004 and later years include both federal and non-federal physicians. Prior to 2003, data included non-federal physicians only.

Chart 5.2: Total Number of Active Physicians⁽¹⁾ per 1,000 Persons by State, 2013

Source: National Center for Health Statistics. (2017). *Health, United States, 2016.* Hyattsville, MD.

(1) Includes active federal and non-federal doctors of medicine and active doctors of osteopathy.

Chart 5.3: Number of Physicians and Dentists⁽¹⁾ Employed by Community Hospitals, 2000 – 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals.

⁽¹⁾ Includes full-time and part-time physicians, dentists, medical interns and residents, and dental interns and residents.

Chart 5.4: Medical and Dental Residents⁽¹⁾ in Training in Community Hospitals, 1995 – 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals.

⁽¹⁾ Includes full-time equivalent interns and residents.

Chart 5.3 in 2014 and earlier years' Chartbooks.

Chart 5.5: Total Full-time Equivalent Employees Working in Hospitals, 1995 – 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals.
Chart 5.4 in 2014 and earlier years' Chartbooks.

Chart 5.6: Full-time Equivalent Employees per Adjusted Admission,⁽¹⁾ 1995 – 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals.

⁽¹⁾ An aggregate measure of workload reflecting the number of inpatient admissions, plus an estimate of the volume of outpatient services, expressed in units equivalent to an inpatient admission in terms of level of effort.

Chart 5.5 in 2014 and earlier years' Chartbooks.

Chart 5.7: Number of RN Full-time Equivalent Employees and RN FTEs per Adjusted Admission, 1995 – 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals.
Chart 5.6 in 2014 and earlier years' Chartbooks.

Chart 5.8: RN Full-time Equivalents as a Percentage of Total Hospital Full-time Equivalents, 1995 – 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals.
Chart 5.7 in 2014 and earlier years' Chartbooks.

Chart 5.9: Percent Distribution of RN Workforce by Age Group, 2015

Source: National Council of State Boards of Nursing. National Nursing Workforce Study 2015.
Link: <https://www.ncsbn.org/workforce.htm>.
Chart added in 2016.

Chart 5.10: RN Employment by Type of Provider, 2016

Source: Email correspondence with the Bureau of Labor Statistics.

⁽¹⁾ Category includes general medical and surgical hospitals, psychiatric and substance abuse hospitals and specialty hospitals.

⁽²⁾ Category includes nursing care facilities, residential care facilities, continuing care retirement communities and assisted living facilities and other residential care facilities.

⁽³⁾ Category includes home healthcare services, elementary and secondary schools, individual and family services, community food and housing services and vocational rehabilitation services.

⁽⁴⁾ Category includes but is not limited to offices of dentists and other health practitioners, state and local government designations, outpatient care centers, educational support services, health and personal care stores, insurance carriers, junior colleges, colleges, universities, professional schools, technical and trade schools and other schools and instruction.

Chart added in 2016.

Chart 5.11: Number of Physicians⁽¹⁾ by Age, 2010, 2012, 2014 and 2016

Source: Federation of State Medical Boards (FSMB). 2016 FSMB Census of Licensed Physicians.

(1) Includes actively licensed physicians. Resident physician licenses were excluded when such licenses could be identified.

Chart 5.11 was previously based on American Medical Association. (2015 Edition). Physician Characteristics and Distribution in the U.S. The document is no longer being updated.

Chart 5.12: Annual Percentage Change in Entry Level Baccalaureate Nursing Enrollment, 1996 – 2016

Source: Email correspondence with the American Association of Colleges of Nursing.

Chart 5.11 in 2014 and earlier years' Chartbooks.

Chart 5.13: Projections of National Supply and Demand for Nursing Professionals, 2020

Source: Georgetown University Center on Education and the Workforce. *Nursing: Supply and Demand through 2020*. February 2015.

Chart previously titled as *National Supply and Demand Projections for FTE RNs*. Source: Project HOPE/Health Affairs as Buerhaus PI, Auerbach DI, Staiger DO. *The Recent Surge In Nurse Employment: Causes and Implications*. *Health Affairs*, 2009; 28(4):w657-68.

Chart 5.12 in 2014 and earlier years' Chartbooks.

CHAPTER 6

The Economic Contribution of
Hospitals

Chart 6.1: National Health Expenditures as a Percentage of Gross Domestic Product and Breakdown of National Health Expenditures, 2016

Source: Centers for Medicare & Medicaid Services, Office of the Actuary. Data released December 6, 2017.

⁽¹⁾ Percentages were rounded, so they may not sum to 100 percent.

Chart 6.2: Number of Full-time and Part-time Hospital Employees, 1995 – 2016

Source: Analysis of American Hospital Association Annual Survey data, 2016, for community hospitals.

Chart 6.3: Impact of Community Hospitals on U.S. Economy (in \$ billions), 2016

Source: Analysis, using BEA RIMS-II (1997/2006) multipliers, released in 2008, applied to 2016 American Hospital Association Annual Survey data. Note: Multipliers released in 2010 and subsequent years no longer include the national level multipliers needed for this chart. The sum of the direct and ripple effect may be less than or greater than the total contribution due to rounding.

Chart 6.4: Hospital Employment vs. Employment in Other Industries, 2016

Source: Department of Labor, Bureau of Labor Statistics, Current Employment Statistics (CES) Survey, customized tables. Data released 2018. Link: <http://www.bls.gov/ces>.

(1) Does not include public hospitals.

Chart 6.5: Average Weekly Earnings of Workers, Hospitals⁽¹⁾ vs. All Service-providing Industries, 1995 – 2017

Source: Department of Labor, Bureau of Labor Statistics, Current Employment Statistics (CES) Survey, customized tables.

Data released 2018. Link: <http://www.bls.gov/ces>.

⁽¹⁾ Includes physicians employed by hospitals.

⁽²⁾ Does not include public hospitals.

Chart 6.6: Hospital Employment by Occupation Type, 2016⁽¹⁾

Source: Department of Labor, Bureau of Labor Statistics, May 2015 National Industry-Specific Occupational Employment and Wage Estimates. Data released May 2017. Link: http://www.bls.gov/oes/2015/may/naics4_622100.htm.

⁽¹⁾ Does not include public hospitals.

Chart 6.7: Percent Change in Employment, Seasonally-adjusted: Hospital vs. All Industries (Total Non-farm), 2015 – 2017

Source: Department of Labor, Bureau of Labor Statistics. Data released 2018. Link: <http://www.bls.gov/ces>.

(1) Does not include public hospitals.

Chart 6.8: Percent of Total Regional Employment⁽¹⁾ by Hospitals, 2016

Source: Analysis of American Hospital Association 2016 Annual Survey data and 2016 total non-farm employment data from the Bureau of Labor Statistics.

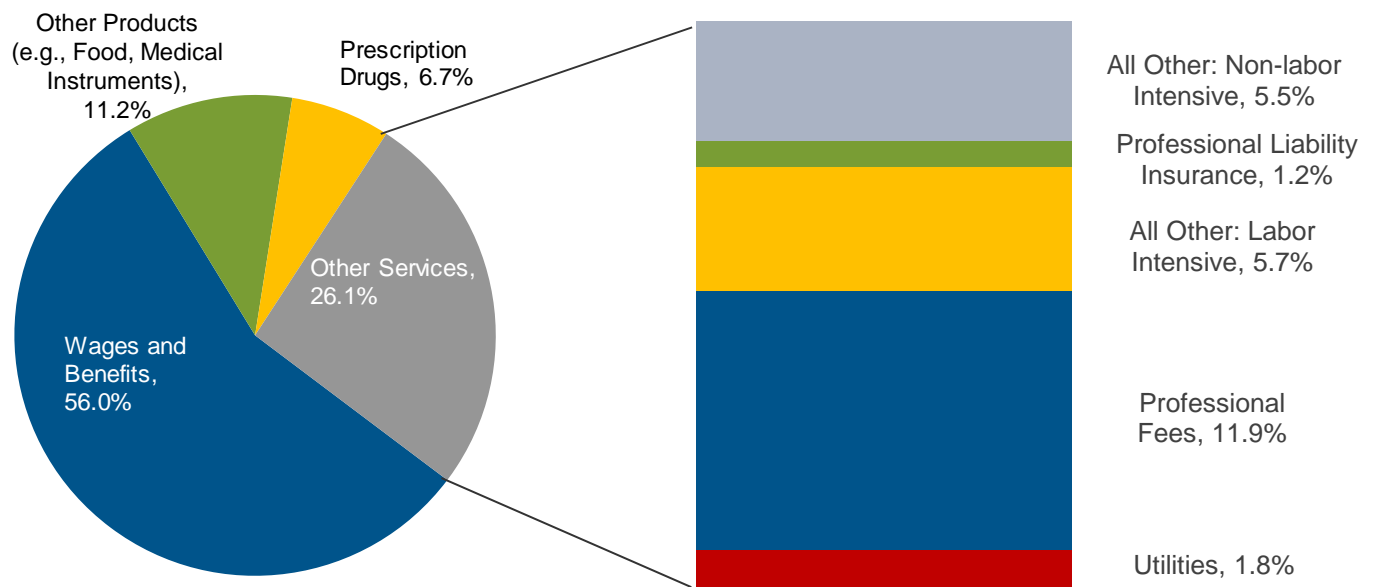

(1) Does not include farm employment.

Chart 6.9: Impact of Community Hospitals on U.S. Jobs (in millions), 2016

Source: Analysis, using BEA RIMS-II (1997/2006) multipliers, released in 2008, applied to 2016 American Hospital Association Annual Survey data. Note: Multipliers released in 2010 and subsequent years no longer include the national level multipliers needed for this chart. The sum of the direct and ripple effect may be less than or greater than the total contribution due to rounding.

Chart 6.10: Percent of Costs by Category in the Inpatient Prospective Payment System Hospital Market Basket, 2016

Source: AHA analysis of Centers for Medicare and Medicaid Services data, using base year 2014 weights.

(1) Does not include capital.

(2) Includes postage and telephone expenses.

Note: Base year 2014 Inpatient Prospective Payment System Market Basket weights do not incorporate impact of prescription drug price growth after the measurement period.

Chart 6.11: Hospital Impact on Sectors of the U.S. Economy
(in \$ billions), 2016

Industry	Economic Impact
Health care and social assistance	\$1,044.8
Manufacturing	\$444.9
Real estate and rental and leasing	\$281.3
Finance and insurance	\$189.8
Professional, scientific and technical services	\$123.4
Retail trade	\$121.3
Wholesale trade	\$97.2
Information	\$97.2
Transportation and warehousing	\$92.5
Administrative and waste management services	\$92.0
Accommodation and food services	\$76.3
Other services	\$74.4
Management of companies and enterprises	\$59.7
Utilities	\$52.8
Agriculture, forestry, fishing and hunting	\$43.6
Educational services	\$23.9
Arts, entertainment, and recreation	\$21.2
Mining	\$18.8
Construction	\$14.7
Total⁽¹⁾	\$2,969.9

Source: Analysis, using BEA RIMS-II (1997/2006) multipliers, released in 2008, applied to 2016 American Hospital Association Annual Survey data. Note: Multipliers released in 2010 and subsequent years no longer include the national level multipliers needed for this chart.

⁽¹⁾ Industries may not sum to total due to rounding.

Chart 6.12: Impact of Community Hospitals on U.S. Economy; All States, DC, and Total U.S., 2016

State Name	Number of Hospital Jobs (FT and PT)	Multiplier for Employment	Effect of Hospital Jobs on Total Jobs in State Economy	Percent of Total Employment Supported by Hospital Employment	Hospital Payroll and Benefits (\$ millions)	Multiplier for Earnings	Effect of Hospital Payroll and Benefits on Total Labor Income (\$ millions)	Hospital Expenditures (\$ millions)	Multiplier for Output	Effect of Hospital Expenditures on Total State Economic Output (\$ millions)

Source: Analysis, using BEA RIMS-II (2007/2016) multipliers for hospital NAICS Code 622000, released 2018, applied to American Hospital Association Annual Survey data for 2016. Hospital jobs are total part time and full time jobs. Hospital labor income is defined as payroll plus benefits. The percent of total employment supported by direct and indirect hospital employment is based on 2016 BLS data. Expenditures are defined as total expenditures minus bad debt. In previous years, expenditures were defined as net patient revenue plus other operating revenue.

*Multipliers released in 2010 and subsequent years no longer include the national level multipliers needed for the U.S. summary row. BEA RIMS-II (1997/2006) multipliers released in 2008 and applied to 2015 AHA annual survey data were used instead.

CHAPTER 7

Community Health Indicators

Chart 7.1: U.S. Population Trends and Projections by Age, 1980 – 2060⁽¹⁾

Source: U.S. Department of Commerce, Bureau of the Census. *Projections of the Population by Sex and Age for the United States: 2015-2060.*

⁽¹⁾ Years 2015 through 2060 are projections.

Chart 7.2: U.S. Population Trends and Projections by Race, 2015 – 2060⁽¹⁾

Source: U.S. Department of Commerce, Bureau of the Census. *Projections of the Population by Sex, Race, and Hispanic Origin for the United States: 2015-2060.*

⁽¹⁾ Years 2015 through 2060 are projections.

⁽²⁾ All other includes American Indian, Native Alaskan, Native Hawaiian, other Pacific Islander and two or more races.

⁽³⁾ Black, Asian and all other categories include Hispanic and non-Hispanic individuals.

Chart 7.3: Age-adjusted Death Rates, Selected Causes, by Race, 2015

Source: National Center for Health Statistics. (2017). *Health, United States, 2016*. Hyattsville, MD.
(1) Racial categories include individuals of both Hispanic and non-Hispanic origin.

Chart 7.4: Percent of People with Chronic Conditions by Number and Sex,⁽¹⁾ 2013

Source: Analysis of 2013 Medical Expenditure Panel Survey data.
(1) The analysis was based on the following study: Anderson, G. (2010). *Chronic Care: Making the Case for Ongoing Care*. Johns Hopkins University and the Robert Wood Johnson Foundation. There were two distinct differences between this analysis and the study's methodologies. First, this analysis used the Chronic Conditions as defined by the Agency for Healthcare Research and Quality Medical Expenditure Panel Survey (MEPS) documentation. Second, it solely relied on MEPS 2013 data and did not use the two additional data sources that were referenced in the Anderson 2010 study (i.e., three opinion telephone surveys commissioned by the Partnership for Solutions and designed by Johns Hopkins and the 1996 Survey of Income and Program Participation data for characteristics of family caregivers).

Chart 7.5: Percent of Fee-for-Service Medicare Beneficiaries with Chronic Conditions, 2015

Source: Centers for Medicare & Medicaid Services. Medicare Chronic Condition Dashboard. Available at: https://www.cms.gov/Research-Statistics-Data-and-Systems/Statistics-Trends-and-Reports/Dashboard/chronic-conditions-region/cc_region_dashboard.html

(1) Chronic obstructive pulmonary disease.

Previously Percent of People with Chronic Conditions by Type, 2006. Source: Anderson, G. (2010). *Chronic Care: Making the Case for Ongoing Care*. Johns Hopkins University and the Robert Wood Johnson Foundation.

Chart 7.6: Number of Persons with Asthma, 1980 – 2015

Source: Centers for Disease Control and Prevention (2002). *Surveillance of Asthma – United States, 1980-1999*. National Center for Health Statistics. National Health Interview Survey 2001, 2006, 2007, 2008, 2009, 2010, 2011, 2012, 2013, 2014 and 2015.

Chart 7.7: Percent of Adults with Hypertension by Sex,⁽¹⁾ 1988 – 1994 and 2011 – 2014

Source: National Center for Health Statistics. (2017). *Health, United States, 2016*. Hyattsville, MD.

⁽¹⁾ Data are age-adjusted to 2000 standard population

Chart 7.8: Percent of Adults Who Are Overweight and Obese,⁽¹⁾ 1960 – 2014

Source: National Center for Health Statistics. (2017). *Health, United States, 2016*. Hyattsville, MD.

⁽¹⁾ Data are age-adjusted to 2000 standard population.

⁽²⁾ Overweight includes obese.

Chart 7.9: Percent of Expenses Used by People with Chronic Conditions by Service Type,⁽¹⁾ 2013

Source: Analysis of 2013 Medical Expenditure Panel Survey data.

⁽¹⁾ The analysis was based on the following study: Anderson, G. (2010). *Chronic Care: Making the Case for Ongoing Care*. Johns Hopkins University and the Robert Wood Johnson Foundation. There were two distinct differences between this analysis and the study's methodologies. First, this analysis used the Chronic Conditions as defined by the Agency for Healthcare Research and Quality Medical Expenditure Panel Survey (MEPS) documentation. Second, it solely relied on MEPS 2013 data and did not use the two additional data sources that were referenced in the Anderson 2010 study (i.e., three opinion telephone surveys commissioned by the Partnership for Solutions and designed by Johns Hopkins and the 1996 Survey of Income and Program Participation data for characteristics of family caregivers).

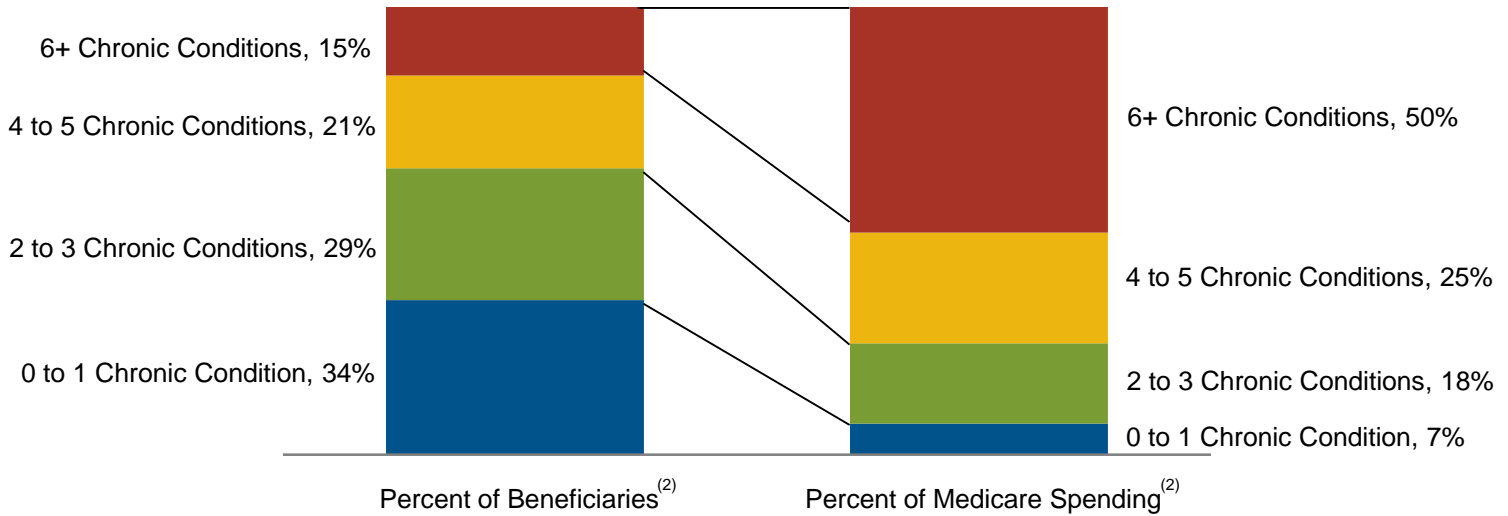

Chart 7.10: Percent of Spending for Individuals with Chronic Conditions by Insurance Status,⁽¹⁾ 2013

Source: Analysis of 2013 Medical Expenditure Panel Survey data.

⁽¹⁾ The analysis was based on the following study: Anderson, G. (2010). *Chronic Care: Making the Case for Ongoing Care*. Johns Hopkins University and the Robert Wood Johnson Foundation. There were two distinct differences between this analysis and the study's methodologies. First, this analysis used the Chronic Conditions as defined by the Agency for Healthcare Research and Quality Medical Expenditure Panel Survey (MEPS) documentation. Second, it solely relied on MEPS 2013 data and did not use the two additional data sources that were referenced in the Anderson 2010 study (i.e., three opinion telephone surveys commissioned by the Partnership for Solutions and designed by Johns Hopkins and the 1996 Survey of Income and Program Participation data for characteristics of family caregivers).

Chart 7.11: Percent of Medicare Fee-for-Service Beneficiaries vs. Percent of Medicare Spending, by Number of Chronic Conditions,⁽¹⁾ 2015

Source: Centers for Medicare & Medicaid Services. Medicare Chronic Condition Dashboard. Data released 2017. Available at: https://www.cms.gov/Research-Statistics-Data-and-Systems/Statistics-Trends-and-Reports/Dashboard/chronic-conditions-region/cc_region_dashboard.html.

⁽¹⁾ Includes 15 CMS identified chronic conditions.

⁽²⁾ Percentages were rounded, so they do not add to 100 percent.

Previously *Percent of Population vs. Percent of Spending, by Number of Chronic Conditions, 2006*. Source: Anderson, G. (2010). *Chronic Care: Making the Case for Ongoing Care*. Johns Hopkins University and the Robert Wood Johnson Foundation.

Chart 7.12: Percent of Medicare Fee-for-Service Spending on Chronic Conditions, by Type of Service,⁽¹⁾ 2010

Source: Centers for Medicare & Medicaid Services. *Chronic Conditions Among Medicare Beneficiaries Chartbook 2012*.

Available at: <http://www.cms.gov/Research-Statistics-Data-and-Systems/Statistics-Trends-and-Reports/Chronic-Conditions/Downloads/2012Chartbook.pdf>.

⁽¹⁾ Includes 15 CMS identified chronic conditions.

⁽²⁾ PAC = Post-Acute Care.

⁽³⁾ E&M = Evaluation & Management.

⁽⁴⁾ DME = Durable Medical Equipment.

Chart added in Chartbook 2013. Replaced: *Working Age Adults with Activity Limitations Due to Chronic Conditions, by Condition and Age, 2006-2007*. Source: National Center for Health Statistics. (2010). *Health, United States, 2009*. Hyattsville, MD.

Chart 7.13: Percent Uninsured by Race, 1984 – 2015

Source: National Center for Health Statistics. (2017). *Health, United States, 2016*. Hyattsville, MD.

(1) Includes individuals of non-Hispanic origin only.

(2) Includes individuals of Hispanic and non-Hispanic origin.

Chart 7.14: Percent of Adults with No Usual Source of Care by Race, 1997 – 2015

Source: National Center for Health Statistics. (2017). *Health, United States, 2016*. Hyattsville, MD.

(1) Includes individuals of non-Hispanic origin only.

(2) Includes individuals of Hispanic and non-Hispanic origin.

Chart 7.15: Percent of Adults with No Usual Source of Care by Insurance Status, 1999 – 2015

Source: National Center for Health Statistics. (2017). *Health, United States, 2016*. Hyattsville, MD.

Chart 7.16: Percent of Children with No Usual Source of Care by Race, 1999 – 2015

aSource: National Center for Health Statistics. (2017). *Health, United States, 2016*. Hyattsville, MD.

(1) Includes individuals of Hispanic and non-Hispanic origin.

(2) Includes individuals of non-Hispanic origin only.

Chart 7.17: Percent of Children with No Usual Source of Care by Insurance Status, 1999 – 2015

Source: National Center for Health Statistics. (2017). *Health, United States, 2016*. Hyattsville, MD.

Chart 7.18: Percent of Individuals with No Health Care Visits by Race, Insurance Status, 1997 and 2015

Source: National Center for Health Statistics. (2017). *Health, United States, 2016*. Hyattsville, MD.

⁽¹⁾ Includes individuals of non-Hispanic origin only.

⁽²⁾ Includes individuals of Hispanic and non-Hispanic origin.

Chart 7.19: Percent of Children with No Health Care Visits by Race, Insurance Status, 1998 and 2015

Source: National Center for Health Statistics. (2017). *Health, United States, 2016*. Hyattsville, MD.

⁽¹⁾ Includes individuals of non-Hispanic origin only.

⁽²⁾ Includes individuals of Hispanic and non-Hispanic origin.

Chart 7.20: Percent of Children with No Dental Visits by Race, Poverty Status, 1997 and 2015

Source: National Center for Health Statistics. (2017). *Health, United States, 2016*. Hyattsville, MD.

⁽¹⁾ Includes individuals of non-Hispanic origin only.

⁽²⁾ Includes individuals of Hispanic and non-Hispanic origin.

⁽³⁾ FPL = federal poverty level.

Chart 7.21: Percent of Children Vaccinated⁽¹⁾ by Race, Poverty Status, 2009⁽²⁾ and 2015

Source: National Center for Health Statistics. (2017). *Health, United States, 2016*. Hyattsville, MD.

(1) Vaccinations include DTP, Polio, MMR, Hib, Hepatitis B, Varicella and PCV.

(2) Classification methodology changed for the Influenza Type B vaccine—before January 2009, NIS did not distinguish between Hib vaccine product types, so children who received three doses of the vaccine that required four doses were misclassified as fully vaccinated.

(3) Includes individuals of non-Hispanic origin only.

(4) FPL = federal poverty level.

Chart 7.22: Percent of Women⁽¹⁾ Receiving Mammography⁽²⁾ by Race, Poverty Status, 1994 and 2015

Source: National Center for Health Statistics. (2017). *Health, United States, 2016*. Hyattsville, MD.

(1) Women over 40 years of age.

(2) Indicates use of mammography in two years prior to 1994 and 2013.

(3) Includes individuals of non-Hispanic origin only.

(4) Includes individuals of Hispanic and non-Hispanic origin.

(5) FPL = federal poverty level.

Chart 7.23: Percent of Adults⁽¹⁾ with Chronic Conditions by Insurance Type, 2012

Source: Centers for Disease Control and Prevention. Multiple Chronic Conditions Among US Adults: A 2012 Update. Available at: http://www.cdc.gov/pcd/issues/2014/13_0389.htm.

(1) Includes individuals 18 years of age and above.

(2) Public health insurance includes Medicaid, Children's Health Insurance Program and Medicare.

(3) Other health insurance includes state-sponsored health plans, other government programs and military health plans.

Chart added in Chartbook 2016.

Chart 7.24: Total Expenditures on Top 10 Most Costly Conditions Among Adults⁽¹⁾ by Sex, 2013

Source: Agency for Healthcare Research and Quality. Center for Financing, Access, and Cost Trends. Household Component of the Medical Expenditure Panel Survey, 2013. Available at: <https://meps.ahrq.gov/mepsweb/>.

(1) Only includes adults ages 18 and older.

(2) Hyperlipidemia and Back Problems are not included among the top ten most costly conditions for females.

(3) Normal birth/live born and systemic lupus and connective tissues disorders are not included among the top ten most costly conditions for males.

Chart added in Chartbook 2016.

Chart 7.25: 30-Day Readmission Rate for Medicare Fee-for-Service Beneficiaries by Number of Chronic Conditions,⁽¹⁾ 2015

Source: Centers for Medicare & Medicaid Services. Medicare Chronic Condition Dashboard. Data released 2017. Available at: https://www.cms.gov/Research-Statistics-Data-and-Systems/Statistics-Trends-and-Reports/Dashboard/chronic-conditions-region/cc_region_dashboard.html

⁽¹⁾ Includes 15 CMS identified chronic conditions.

Chart added in Chartbook 2013.

APPENDICES

APPENDIX 1

Supplementary Data Tables
Trends in the Overall
Health Care Market

Table 1.1: Total National Health Expenditures, 1980 – 2016⁽¹⁾

Year	Total National Health Expenditures				Prescription Drugs Total	
	Total		Per Capita		Nominal Dollars (billions)	Real Dollars ⁽²⁾ (billions)
	Nominal Dollars (billions)	Real Dollars ⁽²⁾ (billions)	Nominal Dollars	Real Dollars ⁽²⁾		
1980	\$255.3	\$255.3	\$1,110	\$1,110	\$12.0	\$12.0
1981	\$296.2	\$268.5	\$1,271	\$1,152	\$13.4	\$12.1

Source: Congressional Budget Office. Data released January 2017. Detail of Spending and Enrollment for CBO's January 2017 Baseline: Medicaid. Link: <https://www.cbo.gov/sites/default/files/recurringdata/51301-2017-01-medicaid.pdf>.

(1) Does not include CHIP enrollees.

(2) In 1997, the Other Title XIX category was dropped and the enrollees therein were subsumed in the remaining categories. Other Title XIX enrollees referred to others who received Medicaid benefits.

(3) For 2014 onward, CBO changed from reporting annual enrollment to average monthly enrollment. Therefore, category values are derived from the total ever enrolled.

(4) Parts may not sum to total due to rounding.

Table 7.3: Age-adjusted Death Rates, Selected Causes, by Race, 2015

Cause of Death	All Persons (per 100,000)	White ⁽¹⁾ (per 100,000)	Black ⁽¹⁾ (per 100,000)
Diseases of the Heart	168.5	167.9	205.1
Malignant Neoplasms	158.5	159.4	180.1
Cerebrovascular Disease	37.6	36.4	50.8
Chronic Lower Respiratory Diseases	41.6	44.5	28.9
Diabetes	21.3	19.6	37.0
Influenza and Pneumonia	15.2	15.2	15.9
HIV Infection	2.0	1.1	7.9

Data for Charts 7.14, 7.16

GLOSSARY

Adjusted Admission – An aggregate measure of workload reflecting the sum of admissions and equivalent admissions attributed to outpatient services. The number of equivalent admissions attributed to outpatient services is derived by multiplying admissions by the ratio of outpatient revenue to inpatient revenue.

Assisted Living – Special combination of housing, supportive services, personalized assistance and health care designed to respond to the individual needs of those who require assistance in activities of daily living. Supportive services are available, 24 hours a day, to meet scheduled and unscheduled needs, in a way that promotes maximum independence and dignity for each resident and encourages the involvement of a resident's family, neighbors and friends.

Average Age of Plant – Accumulated depreciation divided by current depreciation expense.

Community Hospitals – Nonfederal, short-term general, and special hospitals whose facilities and services are available to the public (e.g., obstetrics and gynecology; eye; ear, nose, and throat; rehabilitation; orthopedic; and other individually described specialty services).

FTE per Adjusted Admission – The number of full-time equivalent staff, converted to the number of employees who work full-time divided by the number of adjusted admissions.

Group Practice without Walls – Hospital sponsored physician group. The group shares administrative expenses, although the physicians remain independent practitioners.

Health System – Hospitals belonging to a corporate body that owns and/or manages health provider facilities or health-related subsidiaries. The system may also own non-health-related facilities.

Home Health Service – Service providing nursing, therapy, and health related home-maker or social services in the patient's home.

Horizontal Integration – Merging of two or more firms at the same level of production in some formal, legal relationship. In hospital networks, this may refer to the grouping of several hospitals, outpatient clinics with the hospital, or a geographic network of various health care services.

Hospice – Program providing palliative care, chiefly medical relief of pain and supportive services, addressing the emotional, social, financial, and legal needs of terminally ill patients and their families. This care can be provided in a variety of settings, both inpatient and at home.

Hospital Income from Investments and Other Non-operating Gains – Income not associated with the central operations of the hospital facility. Non-operating gains include income from non-operating activities, including investments, endowments and extraordinary gains, as well as the value of non-realized gains from investments.

Hospital Total Net Revenue – Net patient revenue plus all other revenue, including contributions, endowment revenue, governmental grants, and all other payments not made on behalf of individual patients.

Hospital Operating Margin – Difference between operating revenue and operating expenses divided by operating revenue; excludes non-operating revenue.

Hospital Total Margin – Difference between total net revenue and total expenses divided by total net revenue.

Independent Practice Association (IPA) – Legal entity that holds managed care contracts and contracts with physicians to provide care either on a fee-for-service or capitated basis.

Inpatient Surgery – Surgical services provided to patients who remain in the hospital overnight.

Long Term Care – Package of services provided to those who are aged, chronically ill, or disabled. Services are delivered for a sustained period to individuals who have a demonstrated need, usually measured by functional dependency.

Management Services Organization (MSO) – Corporation often owned by the hospital or a physician/hospital joint venture that provides management services to one or more medical group practices. As part of a full-services management agreement, the MSO purchases the tangible assets of the practices and leases them back, employs all non-physician staff and provides all supplies/administrative systems for a fee.

Meals on Wheels – Hospital sponsored program which delivers meals to people, usually the elderly, who are unable to prepare their own meals. Low cost, nutritional meals are delivered to individuals' homes on a regular basis.

Medicaid Margin – Difference between revenue from Medicaid and expenses associated with treating Medicaid patients, divided by revenue from Medicaid.

Medicare Margin – Difference between revenue from Medicare and expenses associated with treating Medicare patients, divided by revenue from Medicare.

Niche Providers – Providers that focus on a specific set of medical services, a particular population, or a limited set of medical conditions.

Non-patient Hospital Costs – Costs not associated with direct patient care, such as the costs of running cafeterias, parking lots and gift shops.

Outpatient Surgery – Scheduled surgical services provided to patients who do not remain in the hospital overnight. In the AHA Annual Survey, outpatient surgery may be performed in operating suites also used for inpatient surgery, specially designated surgical suites for outpatient surgery or procedure rooms within an outpatient care facility.

Outpatient Visit – Visit by a patient not lodged in the hospital while receiving medical, dental, or other services. Each patient visit to a discrete unit constitutes one visit regardless of the number of diagnostic and/or therapeutic treatments received. Total outpatient visits should include all clinic visits, referred visits, observation services, outpatient surgeries and emergency room visits.

Payment-to-cost Ratio – Ratio illustrating the relationship between hospital payments and costs; a ratio equal to "1" reflects payments at 100 percent of costs.

Physician Hospital Organization (PHO)

Closed PHO – Joint venture between a hospital and physicians who have been selected on the basis of cost-effectiveness and/or high quality. The PHO can act as a unified agent in managed care contracting, own a managed care plan, own and operate ambulatory care centers or ancillary services projects, or provide administrative services to physician members.

Open PHO – Joint venture between a hospital and all members of the medical staff who wish to participate. The open PHO can act as a unified agent in managed care contracting, own a managed care plan, own and operate ambulatory care centers or ancillary services projects, or provide administrative services to physician members.

Private Pay Margin – Difference between revenue from non-government payers and expenses associated with treating private pay patients, divided by revenue from non-government payers.

Skilled Nursing Facility – Institution, or part of an institution, which is primarily engaged in providing to residents a certain level of skilled nursing care and/or rehabilitation services for the injured, disabled, or sick.

Uncompensated Care – Care provided by hospitals for which hospitals do not receive payment.

Underwriting – A health insurer or health plan accepts responsibility for paying the health care services of covered individuals in exchange for dollars, usually referred to as premiums. When a health insurer collects more in premiums than it pays in claim costs and administrative expenses, an underwriting gain is said to occur. If the total expenses exceed the premium dollars collected, an underwriting loss occurs.

Underwriting Cycle – Repeating pattern of gains and losses within the insurance industry.

Vertical Integration – Organization of production whereby one business entity controls or owns all stages of the production and distribution of goods or services. In health care, vertical integration can take different forms but most often refers to physicians, hospitals and health plans combining their organizations or processes in some manner to increase efficiencies and competitive strength or to improve quality of care. Integrated delivery systems or healthcare networks are generally vertically integrated.
