Addiction: The National Heroin Epidemic

Drug overdose is the #1 cause of
accidental death

4 out of 5 heroin addicts started
with prescription opioid drugs

More than 80% of people who
suffer from addiction had a mental
health disorder

PRISM of Lee County

- KSB Hospital
- Lee County Health Department
- Sinnissippi Centers
- Safe Harbor
- Faith-based Community
- Project LEAD
- Lee County Drug Court
- Dixon Police Department
- Lee County Sheriff's Department
- Lee County State's Attorney
- Lee County Probation
- Whiteside County Health Department

The 4 Pillars

- Prevention
- Education
- Treatment
- Enforcement

Overview of PRISM Initiatives

- Community Forum
- Community Narcan Training
- Lee County “We Care” Substance Abuse Hotline
- Community Support Group
- Training and Deployment of Narcan for all Lee County Law Enforcement
- Addiction Education forums at all Lee County High Schools
- The Safe Passage Initiative

The Safe Passage Initiative:

Police Giving Hope to Addicts
through the Tools for Recovery

Safe Passage Goals:

- Immediate placement to appropriate treatment for those suffering from heroin or opioid addiction.
- Change the way law enforcement views and responds to addiction and create public and private partnerships to address addiction.
- Acquire adequate Federal and State Funding for Treatment Centers.

Treatment Access:

A major problem for those seeking assistance.

Treatment Partners

- KSB Hospital
- Chestnut Health Systems
- Robert Young Center
- Gateway
- Rosecrance
- The SHARE Program
- Abraxus Interventions
- Southwood Interventions
- New Vision Detox
- Banyan Treatment Center
- Sinnissippi Centers
- Whiteside County Health Department

How Does It Work?

- Person voluntarily comes to the police department or hospital and asks for help with their addiction.
- A police officer or Safe Passage Guide meets with the person and completes a brief intake form.
- A warrant check and criminal history are completed.
- A Treatment Liaison Coordinator reviews the information and arranges for appropriate placement.

Treatment Spectrum

- Detox
- In-Patient
- Intensive Out-Patient
 - Medically Assisted Treatment
 - Suboxone
 - Vivitral
- Out-Patient
- Support Meetings

Funding

- Private Insurance
- Medicaid
- Department of Alcohol and Substance Abuse (DASA) Funding
