

## *RACTrac Quarterly Webinar*

*Elizabeth Baskett, Associate Director, Policy, AHA*

July 14, 2010

# Agenda

---

- Thanks for making *RAC*Trac a Success!!
- RAC Update
- AHA RAC Resources
- What is *RAC*Trac and How to Use It
  - Overview
  - Tracking RAC Activity
  - Registration
  - Entering Data
  - Helpful Tips
- *RAC*Trac Results, April 2010
- Making *RAC*Trac Results Work For You
- *RAC*Trac Data Collection Period, July 2010
- Questions and Answers

THANKS

For Making the Nationwide First *RAC*Trac Data  
Collection a Success!!!!

653 Responding Hospitals  
437 with RAC Activity, 216 without

# RAC Update

# RAC Update

- As of June 16, 544 total audit requests, 432 approved, continued heavy focus on DRG validation
- RAC correspondence, websites, lost medical records
- Confusion over Remittance Advices
- First Medical Necessity Review (MNR) has been approved, not Part A or B
- RACs are requesting 10-claim samples from hospitals for MNR
- MNR audits of hospitals may begin in August-September
- Healthcare reform expansion of RACs
- CMS article with helpful pointers on avoiding RAC denials:  
<http://www.cms.gov/MLNMMattersArticles/downloads/SE1024.pdf>

## AHA RAC Resources

# AHA RAC Resources

- AHA RAC Resources
  - [www.aha.org/rac](http://www.aha.org/rac)
    - CMS and RAC Contact Information
    - Advisories
      - RAC Program Basics
      - Medicare Appeals Process
      - Coding & Documentation Strategies
      - Preparing for RAC Audits
    - AHA RAC Education Series

What is *RAC*Trac and How to Use It

# What is AHA RACTrac?

- **Web-based survey** to collect RAC experience data from hospitals
- Unit of analysis is the hospital
  - General Medical/Surgical Hospitals including Critical Access Hospitals
  - LTCH
  - Psych
  - Rehab
- **Quarterly data collection**
  - Automated Denials
  - Complex Denials
  - Underpayments
  - Appeals
  - Administrative burden
- **Collect both quarterly snapshot and cumulative information on RAC experience to date**

**Review the *RACTrac* Survey Questions and Definitions at [www.aha.org/rac](http://www.aha.org/rac) click on: *RACTrac*!**

# AHA RACTrac Goals

- 1. Advocate for continued changes in the RAC program**
  - Identify new issues and address issues not resolved from the demonstration program
  - Build the case—using real data—for program changes that reduce financial and administrative burdens
- 2. Educate the field**
  - Help hospitals focus on specific challenges
  - Identify problematic trends in RAC activity on a statewide, region-by-region and national basis
- 3. Make it simple for hospitals to report data to AHA for use in advocacy activities**

***We are all in this together***

# Tracking RAC Activity Data

## Three ways to track data in order to use the survey

1. Free Claim Level Tool – Basic tool provided by AHA to track RAC activity  
Find claim level tool at:  
[www.aha.org/aha/issues/RAC/ractrac.html](http://www.aha.org/aha/issues/RAC/ractrac.html)
2. RACTrac Compatible Tool- (currently 19, with continuous additions)  
Find vendor list at:  
[www.aha.org/aha/issues/RAC/ractrac.html](http://www.aha.org/aha/issues/RAC/ractrac.html)
3. Fill out survey questions manually using your own tracking method

# Is your vendor *RAC*Trac Compatible?

## RACTrac Compatible Vendors

Product	Vendor
3M™ Audit Expert	3M Health Information Systems
Axis – Audit Control	Quadax, Inc.
Compliance 360® Claims Auditor™	Compliance 360®
ComplyTrack <sup>SM</sup>	CCH – MediRegs - Aspen Publishing
Plato	CPR Technologies
HealthPort RACPro	HealthPort
IatrisTRAC	Iatric Systems, Inc.
<i>InSight RAC</i>	Claimtrust, Inc.
ACS MIDAS+/MIDAS + Care Management	ACS Healthcare Solutions
MedAssets Claims Auditor	MedAssets
OnBase RAC Administration Solution	Hyland Software, Inc.
RAC Audit Tracking	Rycan Technologies, Inc.
RAC Guard	The Wellington Group LLC
RAC Source	SOURCECORP/Healthserve Managed Care Professionals, Inc.
RAC Tracker Online	MRO
eCare® RacMan™	NeboSystems, a division of Passport Health Communications Inc.
RACconciliation	Part of AVIANCESuite.com
RACTracker	Greater New York Hospital Association
Veracity	Intersect Healthcare

# RACTrac Registration

- In order to register you will need an **Organization ID** and a **Security Code** specific to your hospital
- Hospital CEOs received an email on June 24<sup>th</sup> with *RACTrac* registration information
- The email encouraged the CEOs to forward the registration information to relevant staff
  - If you have not received this information, please contact **RACTrac Support** to obtain your *RACTrac* Organization ID and Security Code
    - 1-888-722-8712 or  
[ractracsupport@providercs.com](mailto:ractracsupport@providercs.com)

# RACTrac Registration: <http://aharactrac.org/home/>

**RAC TrAC** American Hospital Association

**Welcome**

**COUNTDOWN UNTIL JULY COLLECTION PERIOD**  
Now!

[VIEW THE RESULTS OF RACTRAC'S FIRST NATIONWIDE DATA COLLECTION](#)

RACTrac findings collected from more than 650 hospitals in April 2010 revealed many valuable insights for both the hospitals that reported the data and the AHA and state hospital associations who can use the information to educate the field and inform CMS and Congress of changes needed to the program.

The American Hospital Association's (AHA) RACTrac survey collects data from hospitals on a quarterly basis to assess the impact the Medicare Recovery Audit Contractor (RAC) program on hospitals nationwide. AHA developed RACTrac in response to the lack of data and information provided by CMS on the impact of the RAC program on providers. AHA, State, Metro and Regional Hospital Associations as well as health systems will use the aggregate data reported by hospitals to identify trends and to advocate for needed changes to the program. Having timely and accurate data will enable AHA to tell the hospital story and report on the impact of the RAC program. All individual data reported

# RACTrac Registration

- After creating a profile, log in using the username and password you created
- You are ready to submit survey data quarterly, click on **“Enter/Upload Data”**

Welcome "user1" [Please do not use the internet browser buttons \(e.g., back, refresh\) while in RACTrac.](#) [Data Use Agreement](#) | [Contact](#)

Date Posted	Title	Description	Download File
March 31, 2010	Alert for Organization IDs	Note: If you have received your organization ID and are having difficulties registering, please validate that you enter three zeros	-
March 01, 2010	RAC Program Update	Go to <a href="http://www.aha.org/aha/issues/RAC/index.html">http://www.aha.org/aha/issues/RAC/index.html</a> for the latest information on the Recovery Audit Contractor program	-
June 24, 2010	RACTrac Results Report	RACTrac findings collected from more than 650 hospitals in April 2010 revealed many valuable insights for both the hospitals	-

**Welcome**

**RACTrac is Collecting Data Now!**

You have now registered and are ready to report your RAC experience data or upload data via a CSV file. CSV files can be

# RACTrac Data Entry

You will be presented with the following options to enter your data:

Hospital Name	Address	State			
Sacred Heart Hospital on the Emerald Coast	7800 Highway 98 West	FL	<a href="#">Enter Data</a>	<a href="#">Upload Data</a>	<a href="#">Admin Burden</a>

Select **“Enter Data”** to fill out the survey manually

—OR—

Select **“Upload Data”** to upload your CSV file (generated from compatible vendor or from AHA claim level tracking tool)

After submitting your data, be sure to click on **“Admin Burden”** to fill out the Administrative Burden section

\*Be sure to select **“FINISH”** at the end of survey

## Additional Information

---

**Please fill out *RAC*Trac even if your hospital has not experienced RAC activity—we need to know where the activity is and is not happening**

## RACTrac Results, April 2010

Full report available at:

[www.aha.org/aha/issues/RAC/ractrac.html](http://www.aha.org/aha/issues/RAC/ractrac.html)

# RACTrac Results—Executive Summary

---

- RACTrac collects RAC activity data from hospitals on a quarterly basis
- CMS administers the RAC program and there are four RAC regions nationwide
  - RAC Region C encompasses 40% of hospitals in the United States
  - First quarter 2010 participation in RACTrac was generally consistent with hospital representation in each of the four RAC regions

# RACTrac Results—Executive Summary (cont.)

- RACs conduct *automated reviews* of Medicare payments to health care providers—using computer software to detect improper payments. RACs also conduct *complex reviews* of provider payments—using human review of medical records and other medical documentation to identify improper payments to providers
- More than two thirds of the 653 hospitals responding to RACTrac experienced RAC activity in the first quarter of 2010
  - The majority of hospitals reporting RAC activity were general medical and surgical hospitals
  - Different types and sizes of hospitals were subject to RAC review
  - Region C had the highest number of hospitals reporting RAC activity
  - Region B had the most activity among hospital respondents, with three-fourths of responding hospitals reporting RAC activity

# RACTrac Results—Executive Summary (cont.)

- RACs are primarily engaging in complex reviews
  - Outpatient coding and billing were often the target for automated reviews, while inpatient coding was a common target for complex reviews
  - Medical record requests drove the majority of RAC activity for responding hospitals during the first quarter of 2010
  - Region C had the highest number of medical records requested in the first quarter of 2010 among reporting hospitals, over 4,500, and an average of 30 per reporting hospital
  - *RACTrac* respondents reported complex reviews of medical records totaling over \$117 million in Medicare payments nationwide, \$72 million for Region C alone

## RACTrac Results—Executive Summary (cont.)

- \$2.47 million in denied claims were reported for the 437 hospital respondents experiencing RAC activity in the first quarter of 2010
  - 87% of denied payments resulted from complex denials
  - Region C had the highest number of hospitals reporting denied claims, both complex and automated denials
  - Two thirds of hospitals reporting automated denials experienced denials for outpatient coding and billing errors, while nearly all hospitals reporting complex denials experienced denials for inpatient coding errors
  - The average dollar value of an automated denial was \$709 and the average dollar value of a complex denial was \$6,542
  - *A note on RAC Appeals*—many hospitals are in the early stages of RAC activity, reporting limited RAC appeals experience in the first quarter of 2010. See future RACTrac reports for more information on RAC appeals

# RACTrac Results—Executive Summary (cont.)

- 84% of responding hospitals report that their RAC impacted their organization in the first quarter of 2010—whether they experienced RAC reviews or not
  - 49% of responding hospitals reported increased administrative costs
  - Managing the RAC process is spread across many types of hospital staff creating significant administrative burden
  - Clerical and other types of staff, including RAC coordinators, spent the most time responding to RAC activity
  - Hospitals are using both internal and external resources to prepare and manage RAC activity
  - 17% of responding hospitals hired an external utilization management consultant, spending an average of \$91,636 in the first quarter of 2010

# Participation in *RAC*Trac was generally consistent with hospital representation in each of the RAC regions.

## Hospitals Participating in the *RAC*Trac Survey by RAC Region, 1<sup>st</sup> Quarter, 2010

	Percent of Hospitals Nationwide	Percent of Participating Hospitals by Region
Region A	16%	9%
Region B	19%	30%
Region C	39%	38%
Region D	26%	22%

Source: AHA. (May 2010). *RAC*Trac Survey

AHA analysis of survey data collected from 653 hospitals: 437 reporting activity, 216 reporting no activity from January to March 2010. Data were collected from general medical/surgical acute care hospitals (including critical access hospitals and cancer hospitals), long-term acute care hospitals, inpatient rehabilitation hospitals and inpatient psychiatric hospitals.

# More than two thirds of responding hospitals are experiencing RAC activity.

AHA analysis of survey data collected from 653 hospitals: 437 reporting activity, 216 reporting no activity from January to March 2010. Data were collected from general medical/surgical acute care hospitals (including critical access hospitals and cancer hospitals), long-term acute care hospitals, inpatient rehabilitation hospitals and inpatient psychiatric hospitals.

# The majority of hospitals reporting RAC activity were general medical and surgical hospitals.

Number of Hospitals Reporting RAC Activity by Hospital Type, through 1<sup>st</sup> Quarter 2010

Source: AHA. (May 2010). RACTrac Survey

AHA analysis of survey data collected from 653 hospitals: 437 reporting activity, 216 reporting no activity from January to March 2010. Data were collected from general medical/surgical acute care hospitals (including critical access hospitals and cancer hospitals), long-term acute care hospitals, inpatient rehabilitation hospitals and inpatient psychiatric hospitals. \* Other includes: Cancer, Chronic Disease, Health Care Management, Alcohol and Other Chemical Dep., Children's General, Heart, Obstetrics & Gynecology and Orthopedic hospitals.

# Different types and sizes of hospitals reported that they were subject to RAC review.

## RAC Activity by Type of Hospital, through 1st Quarter 2010

Source: AHA. (May 2010). *RACTrac Survey*

AHA analysis of survey data collected from 653 hospitals: 437 reporting activity, 216 reporting no activity from January to March 2010. Data were collected from general medical/surgical acute care hospitals (including critical access hospitals and cancer hospitals), long-term acute care hospitals, inpatient rehabilitation hospitals and inpatient psychiatric hospitals.

# RAC Region C had the highest number of hospitals reporting RAC activity...

Number of Responding Hospitals Reporting RAC Activity by Region, through 1st Quarter 2010

## States By RAC Region

Region A: Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, and Vermont

Region B: Illinois, Indiana, Kentucky, Michigan, Minnesota, Ohio, and Wisconsin

Region C: Alabama, Arkansas, Colorado, Florida, Georgia, Louisiana, Mississippi, New Mexico, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia, West Virginia, Puerto Rico, and U.S. Virgin Islands

Region D: Alaska, Arizona, California, Hawaii, Idaho, Iowa, Kansas, Missouri, Montana, North Dakota, Nebraska, Nevada, Oregon, South Dakota, Utah, Washington, Wyoming, Guam, American Samoa, and Northern Marianas

Source: AHA. (May 2010). *RACTrac Survey*

AHA analysis of survey data collected from 653 hospitals: 437 reporting activity, 216 reporting no activity from January to March 2010. Data were collected from general medical/surgical acute care hospitals (including critical access hospitals and cancer hospitals), long-term acute care hospitals, inpatient rehabilitation hospitals and inpatient psychiatric hospitals.

...but 75% of participating hospitals in RAC Region B reported RAC activity.

Percent of Participating Hospitals Reporting RAC Activity, by Region, 1<sup>st</sup> Quarter, 2010

Source: AHA. (May 2010). *RACTrac Survey*

AHA analysis of survey data collected from 653 hospitals: 437 reporting activity, 216 reporting no activity from January to March 2010. Data were collected from general medical/surgical acute care hospitals (including critical access hospitals and cancer hospitals), long-term acute care hospitals, inpatient rehabilitation hospitals and inpatient psychiatric hospitals.

# RACs are primarily conducting complex reviews...

Percent of Responding Hospitals with RAC Activity Experiencing Automated and/or Complex RAC Review, through 1st Quarter 2010

Automated Activity: includes all automated reviews, which is a claim determination without a human review of the medical record. RACs use proprietary software that is designed to detect certain types of errors including but not limited to duplicate payments, billing or coding errors. The RAC notifies the provider via a demand letter when an overpayment has been identified through automated review.

Complex Activity: includes all complex reviews, which is a human review and determination of whether or not an improper payment has been identified once the medical record has been received. Upon that determination, a hospital will be notified via a review results letter if an improper payment was found and therefore the associated claim has been "denied".

Source: AHA. (May 2010). *RACTrac Survey*

AHA analysis of survey data collected from 653 hospitals: 437 reporting activity, 216 reporting no activity from January to March 2010. Data were collected from general medical/surgical acute care hospitals (including critical access hospitals and cancer hospitals), long-term acute care hospitals, inpatient rehabilitation hospitals and inpatient psychiatric hospitals.

...and the majority of RAC activity during the first quarter of 2010 was medical record requests.

## Total Reported Automated Denials, Complex Denials and Complex Medical Records Requests, through 1st Quarter 2010

Source: AHA. (May 2010). *RACTrac Survey*

# Using *RAC*Trac Results in Your Hospital

---

- ✓ Identify RAC trends in hospital, your state, RAC region and nationwide
- ✓ Use *RAC*Trac data to implement preventative measures to avoid future RAC recoupments
- ✓ Learn what's going on in other RAC regions to identify potential future RAC issues in your state
- ✓ Learn more about the administrative burden associated with RACs

# RACTrac Supports Critical Advocacy Efforts

---

- ✓ Currently only tool available to gather RAC experience data
- ✓ No more anecdotal evidence—*RACTrac* provides real data on hospital RAC experience nationwide
- ✓ AHA and State Hospital Associations can use *RACTrac* data to advocate for needed improvements in the RAC program
- ✓ *RACTrac* allows State Hospital Associations to put their finger on the pulse of RAC activity in their state
- ✓ State hospital associations can conduct their own analysis and pull out relevant points

*RACTrac* Data Collection Period, July 2010

# RACTrac Collecting Hospital Data **NOW !**

- On June 24th, hospital leaders nationwide received an email with *RACTrac* registration information
  - If you did not receive this information, contact **RACTrac Support** to obtain your *RACTrac* Organization ID and Security Code
    - 1-888-722-8712 or [ractracsupport@providercs.com](mailto:ractracsupport@providercs.com)
- *RACTrac* is **OPEN** now through July 23
- **Submit your RAC experience data TODAY!**
- *RACTrac* is only as successful as we make it

# Additional Information
