## 2012 Quality Excellence Achievement Awards

### OVERVIEW

---

The Illinois Hospital Association's (IHA) Institute for Innovations in Care and Quality (The Institute) second annual Quality Excellence Achievement Awards recognizes and celebrates the achievements of Illinois hospitals that are committed to transforming Illinois health care through innovative approaches and best practices.

From 67 submissions representing 40 hospitals, awards were presented to a total of eight hospitals in two categories: urban and rural/critical access. The two award recipients and six finalists, who were honored at IHA's annual Leadership Summit, were selected by a panel of 30 nationally-recognized quality improvement leaders based on their achievement and progress in advancing one or more elements of the Institute of Medicine's six aims for improvement:

- Safety
- Effectiveness
- Timeliness
- Efficiency
- Equity
- Patient-centered care

To share these initiatives among members, The Institute has published this compendium that provides a synopsis of all award entries along with contact information for additional details. The compendium receives national exposure by being featured annually on the Hospitals in Pursuit of Excellence (HPOE), an AHA affiliate, website.

Project Title: *Nurse-Driven Protocol for Urinary Catheter Removal*

Summary: A nurse-driven protocol was implemented to increase the staff's awareness on the appropriate indications of an indwelling urinary catheter to reduce the use of indwelling urinary catheters and catheter-associated urinary tract infections (CAUTI).

After receiving education, nursing staff was charged with completing the review of need forms daily for each patient with a urinary catheter. According to the protocol, if the patient does not meet the requirement for a urinary catheter, it is discontinued without a physician order.

Although the hospital did not decrease the prevalence rate for urinary catheter days, the use of urinary catheters was appropriate and the rate of CAUTI had decreased.
