DELIVERING QUALITY WITH DISTINCTION

2012 Quality Excellence Achievement Awards

OVERVIEW

The Illinois Hospital Association's (IHA) Institute for Innovations in Care and Quality (The Institute) second annual Quality Excellence Achievement Awards recognizes and celebrates the achievements of Illinois hospitals that are committed to transforming Illinois health care through innovative approaches and best practices.

From 67 submissions representing 40 hospitals, awards were presented to a total of eight hospitals in two categories: urban and rural/critical access. The two award recipients and six finalists, who were honored at IHA's annual Leadership Summit, were selected by a panel of 30 nationally-recognized quality improvement leaders based on their achievement and progress in advancing one or more elements of the Institute of Medicine's six aims for improvement:

- Safety
- Effectiveness
- Timeliness
- Efficiency
- Equity
- Patient-centered care

To share these initiatives among members, The Institute has published this compendium that provides a synopsis of all award entries along with contact information for additional details. The compendium receives national exposure by being featured annually on the Hospitals in Pursuit of Excellence (HPOE), an AHA affiliate, website.

Project Title: *Reducing Hospital-Acquired Clostridium Difficile (C. diff)*

Summary: Harm/hospital-acquired condition reports were sent to each hospital. In reviewing both campuses, each was in the "red" on the scorecard for hospital-acquired C. diff. A CQI+ team was sanctioned to reduce hospital-acquired C. diff by half from a high of 11 cases per month to 5.5 cases per month.

The C. diff CQI+ team utilized innovation, sharing of best practices and Lean/Six Sigma process improvement strategies to focus on decreasing hospital-acquired C. diff. The team was able to change the organization's culture and reduce the number of hospital-acquired C. diff by more than half, and realized a five-fold decrease in hospital-associated C. diff cases.
