## IT IS VITAL THAT THE WORKFORCE IS PREPARED TO DELIVER ON THE HEALTH CARE DEMANDS OF TODAY AND TOMORROW

Hospitals and health systems need to find ways to **attract, recruit, retain, reward** and **train** workers who have the characteristics needed to be successful in the future world of health care work.

### AHA CAN HELP

The American Hospital Association (AHA) has convened The Changing Workforce Task Force to provide strategic thought leadership on the future of the health care workforce. The Task Force will help AHA explore health care workforce challenges, identify future trends, recommend policy and advocacy changes as well as key operational considerations, and help raise awareness of workforce issues among the health care field.

## MEET THE TASK FORCE

22 Hospital/Health System Executives and Clinical Leaders

2 State Hospital Association Executives

Representing 18 States

## HIGHLIGHTS OF TASK FORCE DISCUSSION TOPICS TO DATE:

**LICENSURE & LEADERSHIP DEVELOPMENT**  
COST AND FUNDING OF EDUCATION
