

Health Sector Cybersecurity Coordination Center Cyber Threat Briefing: Frequently Asked Questions

Q: What is the Health Sector Cybersecurity Coordination Center (HC3)?

A: The Health Sector Cybersecurity Coordination Center serves as a U.S. Department of Health and Human Services' focal point for cybersecurity collaboration with the Healthcare and Public Health (HPH) sector, ensuring cybersecurity risks are actively identified and communicated.

Q: What are these briefings about?

A: Hosted by the Health Sector Cybersecurity Coordination Center, these one-hour briefings are intended to provide cyber threat information among technical and non-technical professionals within the HPH sector.

Q: Who should attend these briefings?

A: These briefings are intended to assist professionals with a range of backgrounds and expertise in cybersecurity. Although the initial series is a pilot, the long-term goal is to establish regular contributors to the briefings.

Q: Where will the briefings be hosted?

A: These briefings will be hosted virtually (via WebEx teleconferencing), to encourage wide participation, regardless of physical location. The WebEx information will be provided to participants in the meeting invite.

Q: How are the briefings conducted?

A: Cybersecurity staff from the Health Sector Cybersecurity Coordination Center will lead the one-hour virtual meetings. PowerPoint slides will be presented to aid the topic discussion.

Following the briefing, a portion of the meeting will be dedicated for questions and discussion.
