

FINISHED INTELLIGENCE REPORTS

HC3 Sector Note - December 2020 Vulnerability Bulletin

TLP:WHITE

Jan 12, 2021

On December 2020, a host of vulnerabilities found in common information systems relevant to the health and public health (HPH) sector were disclosed however the ones that were released warrant attention. This includes the Patch Tuesday vulnerabilities in addition

to ad-hoc vulnerability announcements of ongoing mitigation steps and/or patches. Please review the attached report for vulnerabilities this month involving Microsoft, Adobe, Intel, SAP, Cisco, Apple, and MobileIron as these vulnerabilities have been recommended for careful consideration for patching by any healthcare organization with respect to each vulnerability criticality category against organization risk management posture.
