

The COVID-19 Snapshot is the American Hospital Association's look at what America's hospitals and front-line workers are facing as they provide care during the public health emergency. America's hospitals and health systems continue to face historic challenges, including unprecedented financial pressures. It is vitally important that hospitals and health systems receive further support and resources to ensure that they can continue to deliver critical care for patients and communities.

BY THE NUMBERS: COVID-19 IN THE U.S. (As of April 22)

FROM THE FRONT LINES

“

Simply put, we really cannot take another surge like we've seen in the past. Our health system was really strained before and we're very concerned we cannot sustain another strain.

Eric Deaton | Chief Operating Officer, Ballad Health, Johnson City, Tennessee
