

FINISHED INTELLIGENCE REPORTS

CISA Insights: Chain of Custody and Critical Infrastructure

TLP:WHITE

Aug 03, 2021

The United States Cybersecurity and Infrastructure Security Agency (CISA) released a new CISA Insights Report, [Chain of Custody and Critical Infrastructure Systems](#), which offers critical infrastructure owners and operators guidance for securing chain of custody for their physical and digital assets.

The attached CISA Insights Report provides an overview of what chain of custody is, highlights the potential impacts and risks resulting

from a broken chain of custody, and offers critical infrastructure owners and operators an initial framework with five actionable steps for securing chain of custody for their physical and digital assets. It also includes examples of physical and digital chain of custody for the election infrastructure subsector, chemical sector, and more.

CISA Insights Reports are informed by US intelligence and real-world events, with each Insight providing background information on cyber or physical threats to critical infrastructure, as well as a ready-made set of mitigation activities that organizations can implement.

To view the CISA Insights Report, please see the attached document, or via this [link](#).
