Donations to Assist Ukraine and its Refugees

As you have seen the horror of the war in Ukraine, many of you have reached out asking how you can provide assistance.

The U.S. Ukraine Foundation is a 30-year-old organization that supports the people of Ukraine in their quest for freedom, democracy, a free market economy and human rights. The U.S. Ukraine Foundation has established a [fund](#) to provide financial support for humanitarian efforts, including covering the costs of sending medical supplies to Ukraine. The fund also supports refugees through the Kyiv Rotary Refugee Initiative. The AHA is making a donation to the U.S. Ukraine Foundation to support its critical humanitarian and refugee assistance.

In addition, the U.S. Ukraine Foundation is coordinating the distribution of donated medical supplies through its operation “Ukraine AirLIFT.” If you are interested in donating medical supplies, please contact the [AFYA Foundation](#), which is partnering with the U.S. Ukraine Foundation in this effort.

The U.S. Ukraine Foundation has a [list](#) of other charitable organizations, including United Help Ukraine, the Ukrainian branch of The Red Cross, the International Medical Corps, UN Refugee Agency, Voices of Children, along with many other organizations that are assisting the citizens and refugees of Ukraine. For more information, please contact Nadia McConnell, president of the U.S. Ukraine Foundation, at nadia@usukraine.org or 202-468-6614.

Further Questions

If you have questions, please contact AHA at 800-424-4301.
